Pursuant to my obligation to Embedtek, LLC (hereinafter referred to as "Assignee"), a Wisconsin limited liability company having its principal place of business at:

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged, I:

Kent Tabor

confirm my obligation to and hereby sell, assign and convey, unto Assignee, its successors and assigns, my entire right, title and interest -

(1) in and to inventions described in a patent application titled "IMAGING SYSTEM INCLUDING A NON-LINEAR REFLECTOR" for which I filed United States Provisional Patent Application No. 62/897,975 on September 9, 2019 (Atty. (2) in and to the U.S. provisional patent application and the U.S. utility patent application, in and to all other patent applications (including non-provisional, divisional, continuation, continuation-in-part, and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said inventions now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. provisional patent application and the U.S. utility patent application and agree that any domestic patent applications and patent applications of any foreign countries which may be filed shall be filed in the name of the Assignee with a claim to priority based on the U.S. provisional patent applications and the U.S. utility patent application.

I hereby agree that I will, upon demand of Assignee, its successors or assigns, and without further consideration to myself, execute any and all papers that may be necessary, or deemed by Assignee, its successors or assigns, to be necessary, to a complete fulfillment of the intent and purposes of this Assignment, it being understood that any expense incident to the execution of such papers shall be paid by Assignee, its successors and assigns, and not by me.

The Commissioner of Patents and Trademarks of the United States is hereby authorized and requested to issue said patent or patents to Assignee.
