ASSIGNMENT OF PATENT APPLICATION

I, Roy J. HARTFIELD, Jr., residing at 1919 N. Ashe. Ct., Auburn, AL
("Assignor") state that I am an original co-inventor of the inventions relating to the

36830

Improved Gas Delivery System for Cryochamber

described in U.S. Provisional Patent Application No. 62/589,304, filed on November 21, 2017, and U.S. Patent Application No. 16/198,717, filed on November 21, 2018 (such inventions and description being the "Invention"). Assignor agrees to assign, and hereby does assign for good and valuable consideration, the receipt and sufficiency of which are hereby expressly acknowledged, and hereby does sell, assign, and transfer unto

CrvoXcel, LLC, 2515 East Glenn Avenue, Suite 104, Auburn, AL 36830 U.S.
(the "Assignee")

a limited liability company organized under the state laws of Alabama, and its successors, assigns and legal representatives, Assignor's entire right, title, and interest, for all countries in and to: (1) the Inventions, (2) the above-listed patent applications and any inventions (including without limitation, all improvements) set forth therein; and (3) any and all applications (and all rights and inventions therein) that claim the benefit of or priority to the above-listed patent applications (including without limitation any and all non-provisional applications, continuations, continuations-in-part, divisionals, renewals of, international applications, national stage applications, foreign counterpart applications, and substitutes) (collectively, "Future Applications"); and (4) all the rights and privileges under any and all letters patent that may be granted for any of the foregoing in any country, and any reissues, or reexaminations, or extensions thereof. Assignor requests that any and all letters patent for said inventions be issued to said Assignee, its successors, assigns and legal representatives, or to such nominees as assignee may designate.

I hereby authorize and request Assignee, its agents, or representatives to insert into the attached Appendix the application number, country code, and filing date of any Future Applications when known.

Assignor agrees that, when requested, Assignor will, without charge to said Assignee but at Assignee's expense, sign all papers, take all rightful oaths, and do all acts that may be necessary, desirable, or convenient for securing and maintaining patents for said inventions in any and all countries and for vesting title thereto in said Assignee, its successors, assigns, and legal representatives or nominees.

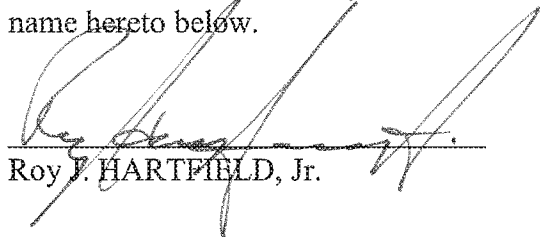

Assignor authorizes and empowers said Assignee, its successors, assigns, and legal representatives or nominees to invoke and claim for any application for patent or other form of protection for said inventions filed by it or them the benefit of the right of priority provided by the Patent Cooperation Treaty, the Paris Convention, and the International Convention for the Protection of Industrial Property, as amended, or by any convention or treaty which may henceforth be substituted for said

treaties and conventions, and to invoke and claim such right of priority without further written or oral authorization from Assignor.

Assignor hereby consents that a copy of this assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file or like document that may be required in any country for any purpose and more particularly in proof of the right of the Assignee or nominee to claim the aforesaid benefit of the right of priority provided by the International Convention.

Assignor represents and covenants with said Assignee, its successors, assigns, and legal representatives, that the rights and property herein conveyed are free and clear of any encumbrance, and that Assignor has full right to convey the same as herein expressed.

IN WITNESS WHEREOF, and with the intent to be bound, the inventor identified above signs his name hereto below.
