CONFIRMATORY INTELLECTUAL PROPERTY ASSIGNMENT

This Confirmatory Intellectual Property Assignment (this "Assignment") by and between MyDigitalShield, Inc., a Delaware corporation ("ASSIGNOR"), and Wirepath Home Systems, LLC DBA Snap AV, a Delaware limited liability company ("WIREPATH") in favor of OmniNet, Inc., a North Carolina corporation ("ASSIGNEE"), together recognized as "PARTIES";

August 10, 2021

RECITALS

WHEREAS ASSIGNOR is the owner of record of the patents and patent applications ("Patent Filings") and the trademarks and trademark applications ("Trademark Filings") set forth on Schedule A attached hereto (collectively, the "Patent and Trademark Filings"); and

WHEREAS ASSIGNOR by an agreement previously executed on July 20, 2018 entitled Asset Purchase and Sale Agreement by and among WIREPATH and ASSIGNOR, in which ASSIGNOR agreed to assign to WIREPATH the Patent and Trademark Filings; and

WHEREAS WIREPATH by an agreement previously executed on December 20, 2019 entitled Bill of Sale and Asset Purchase Agreement by and among ASSIGNEE and WIREPATH, in which WIREPATH agreed to assign the Patent and Trademark Filings to ASSIGNEE.

NOW, THEREFORE, this Assignment operates to confirm the facts included in the RECITALS above and confirms that, via the agreements noted therein, all right, title and interest in and to the Patent and Trademark Filings is vested in ASSIGNEE.

CONFIRMATION

In particular, each of the undersigned hereby confirm that the above RECITALS set forth an accurate recitation of the agreements whereby the entire right, title and interest in and to the Patent and Trademark Filings, in consideration of good and valuable consideration the receipt of which is hereby acknowledged, has been sold, assigned and transferred unto said ASSIGNEE, and its successors, assigns and legal representatives.

Furthermore, each of the undersigned hereby agrees that, to the extent that any transfer documented in the agreements described in the RECITALS may not have fully effected transfer, it hereby sells, assigns and transfers its entire right, title and interest in the Patent Filings and Trademark Filings to ASSIGNEE in accordance with the transfers set forth above.

Thus this Assignment documents that ASSIGNEE is the proper and present owner of the entire right, title and interest in the Patent and Trademark Filings throughout the world including in and to any priority applications included in the Patent Filings and/or to which any of the Patent Filings claim priority, and specifically including any right of priority thereto.

Each of the undersigned hereby furthermore confirms that the sale, assignment and transfer applies to any and all Patent Filings (including issued patents) currently listed in Schedule A, and also to any application based in whole or in part on one or more such Patent Filings, including to divisional, continuing, substitute, renewal, reissue, reexamination and other

applications, for example that claim priority to one or more Patent Filings. Additionally, each of the undersigned hereby furthermore confirms that the sale, assignment and transfer applies to any and all of the Trademark Filings, together with the goodwill of the business associated therewith.

Still further, each of the undersigned hereby confirms and agrees that the sale, assignment and transfer pertains to any and all rights in the Patent Filings arising under or pursuant to any and all international agreements, treaties or laws relating to the protection of industrial property, including all rights of priority under the international Convention for the Protection of Industrial Property, and in and to any such patent(s) as may issue thereon including any and all original and reissued patents which may have been or shall be issued in the United States or any foreign countries; said applications and patents(s) to be held and enjoyed by ASSIGNEE for its own use and for the use of its respective successors, assigns and legal representatives, to the full extent of the term for which such patent(s) may be granted, as fully and entirely as the same would have been held by ASSIGNOR had this sale, assignment and transfer not been made;

And still further, each of the undersigned hereby confirms and agrees that the sale assignment and transfer pertains to any and all rights in the Trademark Filings, including any renewals and extensions of the registrations that are or may be secured, now or hereafter in effect, together with the goodwill of the business associated therewith, said Trademark Filings to be held and enjoyed by ASSIGNEE for its own use and for the use of its respective successors, assigns and legal representatives, to the full extent of the term for which such trademarks may be granted, as fully and entirely as the same would have been held by ASSIGNOR had this sale, assignment and transfer not been made;

And, each of the undersigned hereby acknowledges that this Assignment, being of the entire right, title and interest in and to the Patent Filings, carries with it the right in ASSIGNEE, by attorneys and agents of ASSIGNEE's selection, to apply for and receive any and all patents in connection therewith in its own name;

And, each of the undersigned hereby further agrees for itself and for its successors and assigns to execute upon request any other lawful documents and to perform any other lawful acts which may be deemed necessary to secure fully the patents and trademarks to ASSIGNEE and its respective successors, assignees and legal representatives, but at its expense, including the execution of application for patents in any foreign countries, the execution of substitution, reissue, divisional or continuation applications, and the giving testimony, preliminary statements or other statements in any interference or other proceedings in which the inventions or any applications or patents directed thereto may be involved, by communication to ASSIGNEE all facts it knows relating to the inventions and their history and generally by doing everything possible which ASSIGNEE shall consider desirable for aiding in securing and maintaining proper patent protection for the inventions and Patent Filings, and for vesting title in the inventions and Patent Filings and all applications for patent and all patents on such inventions in ASSIGNEE, and furthermore agrees for itself and for its successors and assigns to perform all lawful acts and execute all lawful documents which ASSIGNEE, at ASSIGNEE's expense, shall consider desirable for aiding in securing and maintaining the trademarks and Trademark Filings;

And, each of the undersigned hereby appoints and/or confirms appointment of ASSIGNEE as common agent for purposes of prosecuting international patent applications and

any national patent applications or any trademarks for which such common agency is recognized;

And, each of the undersigned hereby requests the Commissioner for Patents of the United States Patent and Trademark Office and any officials of any country or counties other than the United States, whose duty is to issue patents or trademarks or other forms of industrial property protection, to issue any and all patents or trademarks as shall be granted upon said application or applications based thereon to ASSIGNEE and its respective successors, assigns and legal representatives;

And, each of the undersigned covenants with said ASSIGNEE and agrees that it has full right to convey the entire right, title, and interest assigned, and it has not executed and will not execute any agreement in conflict herewith and that it has the full right to convey the same as herein expressed.
