## ASSIGNMENT OF PENDING PATENT APPLICATION

WHEREAS, Joseph R. Cook, an individual residing at 1460 S. Ocean Blvd., Apt. 402, Lauderdale By The Sea, FL, 33062 (referred to herein as "Inventor"), having invented certain new and useful improvements in a SYSTEM AND METHOD FOR PRODUCT DESIGN, SIMULATION AND ORDERING ("Invention"), for which a United States patent application was filed on August 30, 2021 and assigned Application Serial No. 17/460,682 ("Application"); and

WHEREAS, TILE REDI, LLC., a Limited Liability Company, organized under the laws of the State of Florida and having a principal place of business at 4450 NW 126<sup>th</sup> Avenue, Coral Springs, Florida 33065 ("Assignee"), is desirous of acquiring the entire right, title, and interest in and to the Invention and the Application, including the right to sue for damages for all past infringement occurring prior to the execution date of this Assignment, and in and to any patents that may be granted therefore in the United States and in any and all foreign countries that are based in whole or in part on the Invention and/or the Application.

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Inventor does hereby sell, assign, convey and transfer unto Assignee the full and exclusive right to the Invention in the United States and its territorial possessions and in all foreign countries and the entire right, title, and interest in and to any and all patents which may be granted therefore in the United States and its territorial possessions and in any and all foreign countries that are based in whole or in part on the Invention and/or the Application and in and to all divisions, reissues, continuations, re-examinations and extensions of the Invention, the Application, or any resulting patent.

Inventor hereby authorizes and requests the United States Patent and Trademark Office and all counterpart patent offices in foreign countries to issue any and all patents resulting in whole or in part from the Invention and/or the Application, when granted, to Assignee as the assignee of the entire right, title, and interest in and to the same, for the sole use and enjoyment of Assignee, its successors and assigns.

Further, Inventor agrees that he will communicate to Assignee or its representatives any facts known to him respecting the Invention or the Application, and testify in any legal proceedings, sign all lawful papers, execute all division, continuation, substitution, renewal and reissue applications, execute all necessary assignment papers to cause any and all of the above-referenced patents to be issued to Assignee, make all rightful oaths and generally do everything necessary or desirable to aid Assignee, its successors and assigns, in obtaining and enforcing proper protection for the Invention and/or the Application in the United States and in all foreign countries.
