ASSIGNMENT

FOR GOOD AND VALUABLE CONSIDERATION, the receipt, sufficiency and adequacy of which are hereby acknowledged, the undersigned, do hereby:

SELL, ASSIGN AND TRANSFER to Nanohmics, Inc. (the "Assignee"), having a place of business at 6201 East Oltorf St., Suite 400, Austin TX 78741, their entire right, title and interest for the United States and all foreign countries in and to any and all invention and improvements which are disclosed in the application for United States Letters Patent, Serial No. 16/434,172 which has been filed on June 6, 2019 and is entitled **"SENSOR AND METHODS FOR DETECTING AND QUANTIFYING IONS AND MOLECULES"**, which claims priority to United States Provisional Patent Application 62/681,829 filed on June 7, 2018, such application and all divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries on any of such invention and improvements; all original and reissued patents which have been or shall be issued in the United States and all foreign countries on such invention and improvements; and specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such application in the United States;

AUTHORIZE AND REQUEST the issuing authority to issue any and all United States and foreign patents granted on such invention and improvements to the Assignee;

WARRANT AND COVENANT that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been or will be made to others by the undersigned, and that the full right to convey the same as herein expressed is possessed by the undersigned;

COVENANT, when requested and at the expense of the Assignee, to carry out in good faith the intent and purpose of this assignment, the undersigned will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all such invention and improvements; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate to the Assignee all facts known to the undersigned relating to such invention and improvements and the history thereof; and generally do everything possible which the Assignee shall consider desirable for vesting title to such invention and improvements in the Assignee, and for securing, maintaining and enforcing proper patent protection for such improvements;

TO BE BINDING on the heirs, assigns, representatives and successors of the undersigned and extend to the successors, assigns and nominees of the Assignee.

The assignment of said invention is effective as of the earlier of (1) the date of execution shown below or (2) the filing date of the first filed of said patent applications.
