## **ASSIGNMENT**

I/We, the undersigned inventor(s):

**Christian Zanzotti**

**Elias Atahi**

hereinafter referred to as “**The Inventor(s)**,” who at the time of invention of the subject-matter corresponding to patent application number 35/507,688, which was filed on February 28, 2019 in the United States of America, hereinafter “**The Application**”, said subject-matter hereinafter referred to as “**The Invention**,” do hereby transfer and assign the entire right, title, and interest to unu GmbH, Berlin, Germany, for any patents and patent applications pertaining to The Invention for all countries, including but not limited to all rights in and to seek patent protection and file patent applications for any and all design patents, utility patents, utility model patents, divisional patents, continuing patents, continuation-in-part patents, substitute patents, renewal patents, reissue patents, Patent Cooperation Treaty patent applications, and national phase patent applications; all rights of priority resulting from the filing of any of said patent applications; and all original issued patents and/or reissued patents resulting from any of the foregoing applications (hereinafter “**The Property**”) to unu GmbH, said transfer and assignment of The Invention having occurred by operation of German employment law and/or any corresponding employment or service agreement(s) between The Inventor(s) and unu GmbH, said German employment law and employment or service agreement(s) being in full force and effect at the creation of The Invention of the subject-matter corresponding hereto, and said transfer and assignment occurring for good and valuable consideration, the receipt of which is hereby acknowledged.

unu GmbH, acknowledges receipt of The Property from The Inventor(s). Therefore, unu GmbH owns 100% of the right, title, and interest in and to The Invention and The Property.
