2. **Assignment.** Effective as of the Closing Date, which shall be the date first indicated above, Company hereby absolutely, unconditionally and irrevocably sells, assigns, conveys, transfers and delivers to Purchaser, and Purchaser does hereby purchase, acquire and accept from Company, all of Company's right, title and interest, in and to the Owned Intellectual Property, including, without limitation, (i) all of the patents and patent applications identified on **Exhibit A** hereto, and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof, and priority applications whether provisional, national, international and/or regional and whether active or inactive, (the "**Assigned Patents**").

8830-8930-4714 v2

including, without limitation, income, royalties and damages related to any of the foregoing, and rights to protection of past, present and future interests in any Owned Intellectual Property under the Laws of all jurisdictions (collectively, the "*Assigned IP*"), in each case free and clear of any and all Encumbrances other than Permitted Encumbrances. Company hereby waives any moral rights, or rights equivalent thereto, that Company may have in or to the Assigned IP worldwide, without compensation or the need for further action by any Person. To the extent that the foregoing waiver is ineffective under applicable Law, Company agrees that Company shall not assert such moral rights against Purchaser or any other Person. This foregoing assignment is intended to be an absolute assignment and not by way of security. Company and its successors and assigns agree not to make any claim or argument in contravention of any of the foregoing.

3. **Authorization.** Company hereby authorizes and requests the Commissioner of Patents and Trademarks in the United States Patent and Trademark Office and the Register of Copyrights in the United States Copyright Office, and the officials of corresponding entities or agencies in any applicable jurisdictions throughout the world to record and register this Agreement upon request by Purchaser.

Company shall not assert any right, title or interest in or to any of the Assigned Patents, Assigned Trademarks, Assigned Domain Names or any other Assigned IP and shall not use any of the Assigned Patents, Assigned Trademarks, Assigned Domain Names or any other Assigned IP except as may be expressly authorized by Purchaser, or its successors or assigns, in writing.

5. [Reserved]

6. **Miscellaneous.**

(a) **Asset Purchase Agreement Controls.** This Agreement is executed and delivered pursuant to, is in accordance with, and is subject to, all of the representations, warranties, covenants, indemnities and miscellaneous provisions set forth in the Asset Purchase Agreement; all of which shall survive the consummation of the transactions contemplated hereby on the basis and to the extent set forth in the Asset Purchase Agreement.
