## MEMORIALIZATION OF ASSIGNMENT

I/We, the undersigned inventor(s):

**Giovanni Zucchinalli**

hereinafter referred to as “The Inventor(s),” who at the time of invention of the subject-matter corresponding to patent application number US 15/684,983 filed on August 24, 2017, which was filed in Italy on August 24, 2016 as 102016000086859, and which granted on April 16, 2019 as US Patent No. 10,264,656, said subject-matter hereinafter referred to as “The Invention,”

was/were duly employed agent(s) of Clay Paky S.p.A., Bergamo, Italy, and do hereby memorialize a transfer and an assignment of the entire right, title, and interest for any patents and patent applications pertaining to The Invention for all countries, including but not limited to all rights in and to seek patent protection and file patent applications for any and all design patents, utility patents, utility model patents, divisional patents, continuing patents, continuation-in-part patents, substitute patents, renewal patents, reissue patents, Patent Cooperation Treaty patent applications, and national phase patent applications; all rights of priority resulting from the filing of any of said patent applications; and all original issued patents and/or reissued patents resulting from any of the foregoing applications (hereinafter “The Property”) to Clay Paky S.p.A., said transfer and assignment of The Invention having occurred by operation of Italian employment law and/or any corresponding employment agreement(s) between The Inventor(s) and Clay Paky S.p.A., said Italian employment law and employment agreement(s) being in full force and effect at the creation of The Invention of the subject-matter corresponding hereto, and said transfer and assignment occurring for good and valuable consideration, the receipt of which is hereby acknowledged.

Clay Paky S.p.A., acknowledges receipt of The Property from The Inventor(s).

Clay Paky S.p.A. hereby assigns 50% of its right, title, and interest to OSRAM GmbH for any patents and patent applications pertaining to The Invention for all countries, including but not limited to all rights in and to seek patent protection and file patent applications for any and all design patents, utility patents, utility model patents, divisional patents, continuing patents, continuation-in-part patents,

substitute patents, renewal patents, reissue patents, Patent Cooperation Treaty patent applications, and national phase patent applications; all rights of priority resulting from the filing of any of said patent applications; and all original issued patents and/or reissued patents resulting from any of the foregoing applications ("The Property"). Said transfer and assignment occurring for good and valuable consideration, the receipt of which is hereby acknowledged. Said transfer and assignment from Clay Paky S.p.A. to OSRAM GmbH is further acknowledged to be valid and in full effect with respect to any heirs, successors, assigns, or other legal representatives with respect to The Invention and The Property.

Therefore, Clay Paky S.p.A. owns 50% of the right, title, and interest in and to The Invention and The Property, and Osram GmbH owns 50% of the right, title, and interest in and to The Invention and The Property.
