PATENT ASSIGNMENT

For good and valuable consideration, the receipt of which is hereby acknowledged, the person(s) identified below (hereinafter referred to as Assignor), have assigned, and do hereby assign, transfer and set over to Relola Inc., a Delaware corporation having a mailing address of 800 West El Camino Real Suite 180 Mountain View, CA 94040 United States (hereinafter referred to as Assignee), for itself and its successors, transferees, and assignees, the following:

1. The entire worldwide right, title, and interest in all inventions and improvements (“subject matter”) that are disclosed in:

U.S. Patent Application Serial No. 17/071,867, entitled “SYSTEM AND METHODS OF DE-CENTRALIZED CONTENT COLLECTION, DISTRIBUTION, AND CONTROL,” filed on October 15, 2020.

2. The entire worldwide right, title, and interest in said inventions and subject matter, and in any and all patent applications that have been filed or shall be filed in the United States and in all foreign countries that contain or are amended to contain any of said inventions or subject matter (whether said patent applications are related or unrelated by right of priority), including any and all nonprovisionals, continuations, divisions, continuations-in-part, substitutes, reexaminations, reissues, and extensions; and in any and all patents and legal protections that have been obtained or shall be obtained in the United States and in all foreign countries for any of said inventions or subject matter, and in any and all causes of action, past and future, and damages accruing in connection therewith.

Assignor agrees to execute all papers necessary or deemed expedient by Assignee, including all oaths, declarations, assignments, and powers of attorney, in connection with the application, with any and all patent applications that have been filed or shall be filed in the United States and in all foreign countries that contain or are amended to contain therein any of said inventions or subject matter (whether said patent applications are related or unrelated by right of priority), including any and all nonprovisionals, continuations, divisions, continuations-in-part, substitutes, reexaminations, reissues, and extensions, with any and all patents and legal protections that have been obtained or shall be obtained in the United States and in all foreign countries, and with any and all causes of action, past and future, and damages accruing in connection therewith.

Assignor agrees to execute all papers necessary in connection with any interference, derivative proceeding, reexamination, opposition, post grant proceeding, and any other legal proceeding or cause of action which may be declared concerning the application, any and all patent applications that have been filed or shall be filed in the United States and in all foreign countries that contain or are amended to contain therein any of said inventions or subject matter (whether said patent applications are related or unrelated by right of priority), including any and all nonprovisionals, continuations, divisions, continuations-in-part, substitutes, reexaminations, reissues, and extensions, and any and all patents and legal protections that have been obtained or shall be obtained in the United States and in all foreign countries, and to cooperate with Assignee

in every way possible in obtaining evidence, including evidence of conception, reduction to practice and/or inventorship as needed.

Assignor agrees to execute all papers and documents and perform any act which may be necessary in connection with claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

Assignor agrees to perform all affirmative acts which may be necessary to obtain a grant of any valid United States patent or patent in any foreign country to Assignee.

Assignor hereby authorizes and requests the Commissioner for Patents and the duly constituted authorities of foreign countries to issue any and all Letters Patents or similar legal protection to Assignee, its successors and assigns, as Assignee of the entire right, title and interest resulting from said application, and any and all patent applications that have been filed or shall be filed in the United States and in all foreign countries that contain or are amended to contain therein any of said inventions or subject matter (whether said patent applications are related or unrelated by right of priority), including any and all nonprovisionals, continuations, divisions, substitutes, reexaminations, reissues, and extensions, and hereby covenants that Assignor has full right to convey the entire interest herein assigned, and has not executed and will not execute, any agreement in conflict herewith.

Assignor hereby grants all attorneys and agents associated with Customer No. 160712 the power to insert on this assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.
