PATENT ASSIGNMENT

This **Patent Assignment Agreement** (the "**Patent Assignment**") is made and entered into as of June 30, 2020 (the "**Effective Date**") by and between Kashiv BioSciences, LLC, a Delaware limited liability company having an address at 20 New England Avenue, Piscataway, New Jersey 08854 (the "**Assignor**") and Kashiv Specialty Pharmaceuticals, LLC, a Delaware limited liability company having an address at 995 U.S. Highway 202/206, Bridgewater, New Jersey 08807 (the "**Assignee**"). Assignee and Assignor are sometimes referred to herein individually as a "**Party**" and collectively as the "**Parties**". Capitalized terms used, but not defined, herein shall have the meaning ascribed to such terms in the Contribution Agreement (as defined below).

WHEREAS, Assignor and Assignee entered into that certain Contribution Agreement dated as of June 30, 2020 (the "**Contribution Agreement**"), pursuant to which Assignor has conveyed, transferred and assigned to Assignee certain Assets of Assignor, including those patents and patent applications set forth on Schedule I attached hereto (collectively, the "**Assigned Patents**"); and

WHEREAS, Assignor is the owner of the Assigned Patents, and as of the Effective Date and pursuant to the terms hereof, Assignor wishes to assign to Assignee, and the Assignee wishes to assume, all right, title and interest in and to the Assigned Patents.

NOW, THEREFORE, for the consideration furnished by Assignee to Assignor as set forth in the Contribution Agreement and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the Parties:

1. As of the Effective Date, Assignor hereby assigns, transfers, sells and conveys to Assignee and its successors and assigns the full and exclusive right, title and interest in and to said Assigned Patents, along with the inventions disclosed and claimed therein, including all rights to any United States Letters Patent therefor, when issued, together with all improvements thereon and betterments thereof; all related applications including divisions, continuations, continuations-in-part, extensions, adjustments, reissues and reexaminations thereof and substitutions of or for said application and the right to claim priority therefrom or thereto; all foreign and international rights, including extensions and supplementary protection certificates, the right to make application for Letters Patent for said inventions in any and all foreign countries and the right to claim priority therefrom and thereto and as to the filing date under the International Convention; and all other corresponding rights that are or may be hereafter secured under the laws of any country now or hereafter in effect, for Assignee's own use and enjoyment, and for the use and enjoyment of Assignee's successors and assigns, as fully and entirely as the same would have been held and enjoyed by such Assignor if this Patent Assignment had not been made, including all right, title and interest in and to all income, proceeds, royalties, damages, claims and payments which accrue, or have accrued, prior to and as of the Effective Date or thereafter and are due or payable with respect thereto, and in and to all causes of action, either at law or in equity, for any past, present or future infringement of the Assigned Patents, or other violation or unauthorized use of the Assigned Patents, with the right to sue for, and collect the same.

2. Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the corresponding empowered officials of all other governments or regional authorities to record this Patent Assignment, and issue or transfer the Assigned Patents to Assignee, as assignee of the entire right, title and interest therein or otherwise as Assignee may direct.

3. The Parties acknowledge and agree that certain documents may need to be executed and delivered by Assignor to effectuate transfer of title to the Assigned Patents to Assignee. Assignor agrees to provide to Assignee and Assignee's successors, assigns or other legal representatives all such cooperation

and assistance (including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other documentation), reasonably requested by Assignee to more fully and effectively effectuate the purposes of this Patent Assignment, at Assignee's sole expense.

4. Assignor hereby represents and warrants to Assignee:

(a) Assignor exclusively owns all right, title and interest in and to all of the Assigned Patents free and clear of any liens or encumbrances and Assignor has the exclusive right to assign, sell, license, or otherwise transfer all right, title and interest to the Assigned Patents;

(b) Assignor has not transferred, assigned or otherwise granted any right, license or interest in or to any of the Assigned Patents to any third party; and

(c) Assignor has the ability to enter into this Patent Assignment and assign the rights granted herein without violation of any law, regulation or any agreement with any third party.

5. Each provision of this Patent Assignment will be interpreted in such a manner as to be effective and valid under applicable law, but if any term or other provision of this Patent Assignment is held to be invalid, illegal or unenforceable under applicable law, all other provisions of this Patent Assignment shall remain in full force and effect.

6. This Patent Assignment may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original. This Patent Assignment may not be amended except by an instrument in writing signed by each of the Parties hereto.

7. This Patent Assignment shall be governed by and construed in accordance with the Laws of the State of Delaware without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction) that would cause the application of the Laws of any jurisdiction other than the State of Delaware.
