## ASSIGNMENT

This Assignment is made by Shariq Hussain, of Vista, California, and Paul M. Elizondo, of Escondido, California, Assignors to MEPS Real-Time, Inc. a Delaware corporation, Assignee, having a place of business at 6451 El Camino Real, Suite C, Carlsbad, California 92009.

WHEREAS, Assignors have invented a new and useful RFID-ENABLED MODULE FOR ENCLOSURES (the “invention”), for which an application for United States Letters Patent was filed on April 20, 2015 and has Application No. 14/691,563 (the “application”); and

WHEREAS, Assignors believe themselves to be the original, first, and joint inventors of the invention disclosed and claimed in the application; and

WHEREAS, Assignee desires to acquire by formal, recordable assignment the entire right, title, and interest in and to the invention, the application, and any Letters Patent that may be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for the sum of ten dollars (\$10) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, the entire right, title, and interest in and to the invention, the application, any application claiming priority to the application, and any Letters Patent that may be granted for the invention in the United States and throughout the world, including any continuation, divisional, continuation-in-part, reissue, reexamination certificate, and including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.

Further, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representative(s) and assigns will do all lawful acts, including the execution of papers and the giving of testimony, that may be necessary or desirable for obtaining, maintaining, sustaining, reissuing, reexamining, reviewing under any provision of the America Invents Act, or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording, or maintaining the title of Assignee, its successors and assigns, to the invention, the application, and subsequent application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted herein.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the application or on any subsequently filed division, continuation, continuation-in-part, or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

IN WITNESS WHEREOF, Assignors have executed this Assignment on the date written herein below.
