## **ASSIGNMENT**

U.S. Design Patent Application  
Serial No: 29/694,003  
Filing Date: June 6, 2019

Whereas, Christopher Charles McKleroy, Jr., a resident of Alpine Meadows, CA (hereinafter referred to as "Inventor") has invented a new, original, and ornamental design for a:

### **BINOCULAR GRIP**

and executed therefor an Application for Letters Patent of the United States and having an oath or declaration executed on even date herewith, said Application having the identifying information indicated above (to be inserted as provided herein); and

Whereas, NOCS Provisions LLC (hereinafter "Assignee"), a limited liability company of California, and having a principal place of business at 2361 John Scott Trail, Alpine Meadows, CA 96146, is desirous of acquiring the entire right, title, and interest in and to said design, said Application, and the design patent or registration to be obtained therefor:

Now, therefore, for and in consideration of One Dollar and other good and valuable consideration, to Inventor in hand paid, the receipt and sufficiency whereof are hereby acknowledged, Inventor has sold, assigned, and set over and by these presents does hereby sell, assign, and set over unto Assignee and Assignee's legal representatives, successors and assigns, their entire right, title, and interest in and to said design, said Application and any other application, domestic or foreign, that claims said design, as well as any design patent or design registration, domestic or foreign, that may or shall issue thereon; and Inventor does hereby authorize and request the Commissioner of Patents and Trademarks to issue any Letters Patent that may be granted on said Application to the above-mentioned Assignee.

The terms "Application" and "any other application" as used herein include, but shall not be limited to, continuation, continuation-in-part, divisional, reissue or re-examination applications, and any foreign equivalents thereof, and any applications for design registrations.

Inventor hereby authorizes the above-mentioned Assignee or its legal representatives to insert in this instrument the filing date and serial number of said Application or any other information that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation

of this document.

Upon said consideration, Inventor hereby conveys to Assignee all priority rights and priority claims pertaining thereto resulting from the filing of said Application, or any continuations, continuations-in-part, or divisions thereof, in the United States, and the right to make application in Assignee's own name and behalf for protection of said design in countries foreign to the United States; and

**Inventor hereby covenants** and agrees with Assignee that Inventor will not execute any writing or do any act whatsoever conflicting with these presents, and that Inventor will at any time upon request, without further or additional consideration, but at the expense of Assignee, execute such additional assignments and other writings and do such additional acts as Assignee may deem necessary or desirable to perfect Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, divisional, continuation, continuation-in-part, renewal, reexamined, reissued or extended Letters Patent of the United States or of any and all foreign countries on said design, and in enforcing any rights or chose in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind and inure to the benefit of the assigns and legal representatives of both parties.

Date: Sept 25, 2021
