## ASSIGNMENT

WHEREAS, Cash Dynamics Limited, a company registered in England and Wales with company number 06831813 and having its registered office at 1-5 Fowler Road, Ilford, Essex, IG6 3UT ("Assignor"), desires to sell, transfer, convey, assign, and deliver all of its right, title, and interest in and to the Assigned Patents (as defined below), including the rights to file patent applications and obtain patents in all jurisdictions worldwide; and

WHEREAS, *Tidel Engineering, L.P.*, a Texas limited partnership organized under the laws of USA with its principal place of business at 2025 Belt Line Road, #114 *Carrollton, Texas 75006* ("Assignee"), desires to acquire all of Assignor's right, title, and interest in and to the Assigned Patents;

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged by Assignor, Assignor does hereby sell, transfer, convey, assign, and deliver to Assignee all of Assignor's right, title, and interest in and to:

- the patents and patent applications listed in Appendix A,
- any and all patents and applications (including continuations, continuations-in-part, divisions, substitutions, reissues, and convention applications and patents) that are entitled to the benefit of priority, or are implicated by a terminal disclaimer (related to an "obviousness-type" double patenting rejection), with respect to any of the patents or patent applications listed in Appendix A, and
- any renewals, reissues, or extensions of any of the foregoing (including but not limited to any of the foregoing that may be for design patents, industrial designs, petty patents, or utility models), regardless of whether those rights arise under the laws of the United States or any other state, country or jurisdiction throughout the world (collectively the "Assigned Patents");

the same to be held and enjoyed by Assignee and its successors and assigns entirely as if the same would have been held and enjoyed by Assignor had this assignment not been made, and further with all rights of action, powers and benefit to the Assigned Patents, due or accrued, including the right to sue for and recover in the Assignee's own name and that of its successors and assigns and other legal representatives all remedies of every nature, including, without limitation, the right to sue for past damages, rights to injunctive relief, damages, profits, costs and attorney fees, arising out of any infringement of the Assigned Patents.

From time to time, on and after the effective date of this Patent and Patent Applications Assignment, Assignor shall, at the reasonable request and the expense of Assignee: (a) execute and deliver or cause to be delivered any documents and further instruments of assignment consistent with the present assignment, and (b) take or cause to be taken all such other actions, as may reasonably be deemed necessary or desirable in order for Assignee to obtain the full benefits of the present assignment.

This Patent and Patent Applications Assignment shall inure to the benefit of and be binding upon Assignee and Assignor and their respective successors and assigns.

Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States of America and the empowered officials of all other governments to issue or transfer all Assigned Patents to Assignee, as owner of the entire right, title and interest therein.
