PATENT ASSIGNMENT

WHEREAS, Axiom Tool Group, Inc., a corporation organized and existing under the laws of the State of Ohio, having its principal place of business at 270 E. Broad Street, Westerville, Ohio 43081 (“Axiom”), and Todd Damon, an individual resident of the State of Ohio (together with Axiom, the “Assignors”), are collectively the owners of the issued patents and patents pending listed on Exhibit A hereto (hereinafter, the “Scheduled Patents”).

WHEREAS, JPW Industries Holding Corporation, a corporation organized and existing under the laws of the State of Delaware, having its principal place of business at 427 New Sanford Road, La Vergne, Tennessee 37086 (“Assignee”), is desirous of acquiring the entire right, title and interest in, to and under the same.

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, and pursuant to the terms of the Asset Purchase Agreement by and among the Assignors and Assignee, dated October 1, 2021 (the “Asset Purchase Agreement”), the Assignors hereby sell, assign, and transfer to the Assignee, all right, title and interest to the Scheduled Patents and the inventions therein set forth and described, all reissues and extensions thereof, and any and all letters patents of the United States and other countries which may be granted thereon or therefor; the same to be held and enjoyed by the said Assignee, its assigns or other legal representatives for their own use and enjoyment, to the end of the term or terms for which any of said letters patents have been granted or may be reissued, as fully and entirely as the same would have been held and enjoyed by the Assignors had this assignment and sale not been made, together with all rights to sue and recover for any past infringement of any of the Scheduled Patents.

Upon the full execution and exchange of this Patent Assignment, at Assignee’s reasonable request, the Assignors shall execute and deliver to Assignee such additional assignment documents as Assignee prepares and states is necessary to confirm and effect the assignment and transfer of the Scheduled Patents. At the reasonable request of Assignee, and at Assignee’s sole expense, the Assignors shall execute, and shall designate a responsible person (as applicable) who shall in the future, timely execute and deliver all such assignment documents to Assignee. Until such time as all of the assignments of the Scheduled Patents as set forth in the annexed Schedules are duly recorded with the responsible government offices (the “Interim Period”), the Assignors acknowledge and confirm that Assignee shall, in any event, be deemed hereunder and in accordance with the terms and conditions of the Asset Purchase Agreement, to be the owner of all of the Scheduled Patents and Assignee shall be solely responsible (at Assignee’s sole cost and expense) for maintaining, enforcing, prosecuting and defending all such Scheduled Patents.

In the event that any of the Scheduled Patents shall become due for any maintenance filings or other recordations during the Interim Period, the Assignors shall likewise cooperate with Assignee’s requests and hereby consent and grant to Assignee the right to take whatever action is necessary, in Assignee’s reasonable judgment, and at Assignee’s expense, to maintain and enforce all registrations and other filings in the U.S. Patent and Trademark Office and the patent offices of other relevant countries. All recordations and filings of assignments of the

Scheduled Patents and other materials confirming ownership by Assignee shall be made at Assignee's sole expense.

This Patent Assignment shall be binding on the respective successors and assigns of the Assignors and Assignee.

IN WITNESS WHEREOF, the Assignors and Assignee have caused this Patent Assignment to be signed this 1st day of October, 2021.
