ASSIGNMENT

In consideration of good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, the undersigned Andrew Eisenthal (Brooklyn, NY), Edward Ruppel III (San Jose, CA), and Shashwat Gupta (Baltimore, MD) (collectively referred to herein as “**Assignors**”) hereby assign, sell and transfer to PneumoNIX Medical, Inc. (115 W. 29th St. #1, Baltimore, MD 21218) (“**Assignee**”), its successors and assigns, the entire right, title and interest in all inventions and/or improvements disclosed in the patent applications shown below:

- (a) U.S. Provisional Application No. 29/672,792 filed on December 10, 2018, entitled Tissue Tract Sealing Device; each naming as Inventors Andrew Eisenthal, Edward Ruppel III, and Shashwat Gupta; and,
- (b) any and all inventions, improvements, know-how, trade secret, and/or other subject matter described, disclosed, contained in, or relating to (whether claimed or not) the patent application listed above, whether developed solely or jointly with others; and,
- (c) the right to file foreign applications under the provisions of any convention or treaty and claim priority based on any of the foregoing applications under the Patent Cooperation Treaty (PCT) and/or in the United States and/or any other country; and,
- (d) all international, divisional, continuing, design, utility model, substitute, renewal, reissue, reexamination, and all other applications for patent which have been or shall be filed in the United States and all foreign countries that claim priority to or through, the patent applications and patents referred to herein; and,
- (e) all original, reissued and reexamined patents which have been or shall be issued on or resulting from any of the patent applications and patents referred to herein in any country including but not limited to the United States; and,
- (f) the copyright in any and all material described, disclosed, or contained in any of the patent applications and patents referred to herein; and,
- (g) any and all other rights described in or provided by any of the above.

The undersigned Assignors warrant themselves to be the owners of the entire right, title and interest in said invention or improvements and to have the right to make this assignment, and further warrant that there are no outstanding prior assignments, licenses, or other encumbrances on the interest herein assigned.

The undersigned hereby authorize and request all patent offices to issue patents resulting from the patent applications and patents referred to herein to said Assignee. The undersigned hereby authorize and request the attorneys of record in said application to insert in this assignment the filing date and serial number of said application when officially known, and the date of execution of the application.

For said considerations the undersigned hereby agree, upon the request and at the expense of said Assignee, its successors and assigns, to execute any and all applications for said invention or improvements, and any necessary oath, affidavit or declaration relating thereto, and any application for the reissue or extension of any the patent applications and patents referred to herein that may be granted upon said application and/or patents and any and all applications and other patents on said invention or improvements, that said Assignee, its successors or assigns may deem necessary or expedient, and for the said considerations the undersigned Assignors authorize said Assignee to apply for patents for said invention or improvements in its own name in such countries where such procedure is proper and further agree, upon the request of said Assignee, its successors and assigns, to cooperate to the best of the ability of the undersigned Assignors with said Assignee, its successors and assigns, in any proceedings or transactions involving such applications and/or patents, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain, maintain and enforce said patents and vest all rights therein hereby conveyed in the Assignee, its successors and assigns, whereby said applications and patents will be held and enjoyed by the said Assignee, its successors and assigns, to the full end of the term for which said patents will be granted, as fully and entirely as the same would have been held and enjoyed by the undersigned if this assignment had not been made.

This assignment is effective as of the earliest priority date listed above.
