## PATENT ASSIGNMENT

WHEREAS Cloudvisory, LLC, a corporation having an address at c/o FireEye, Inc., 601 McCarthy Blvd., Milpitas, CA 95035, United States (hereinafter "Assignor") is the owner of the patent applications and patents, and the inventions described therein (hereinafter referred to as "the Patents") listed on the attached EXHIBIT A.

WHEREAS, FireEye, Inc., a corporation, having an address at 601 McCarthy Blvd., Milpitas, CA 95035, United States (hereinafter referred to as "Assignee") is desirous of acquiring the entire right, title and interest in and to the Patents;

WHEREAS, Assignor desires to transfer to Assignee the entire right, title and interest in and to the Patents.

NOW THEREFORE, for Ten Dollars, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor by these presents does sell, assign, transfer and convey unto Assignee, its successors, assigns and legal representatives, its entire, right, title and interest in and throughout the United States (including its territories and dependencies) and all countries foreign thereto:

(a) in and to the inventions disclosed in the Patents;

(b) in and to the Patents and any and all related United States and foreign patent applications disclosing said inventions, including provisionals, nonprovisionals, divisions, continuations, continuations-in-part, and continued prosecution applications and any other related United States and foreign patent applications thereof, along with all rights of priority created by said patent applications under the Paris Convention, and any other relevant international agreements;

(c) in and to all United States and foreign patents which may be granted on any and all of said applications, including extensions, reissues and reexamination certificates thereof; and

(d) in and to all rights to sue for and damages resulting from past, present and future infringement of all United States and foreign patents granted or to be granted on said applications and inventions disclosed therein, and related patents and patent applications including extensions, reissues, and reexamination certificates thereof;

said inventions, patents and patent applications, and rights to damages to be held and enjoyed by the above-named Assignee, for Assignee's own use and benefit, and for Assignee's legal representatives and assigns to the full end of the term or terms for which said patents may be granted, as fully and entirely as the same would have been held by the undersigned Assignor had this assignment and sale not been made.

Upon request of Assignee, and without further remuneration, Assignor will execute any and all papers desired by Assignee for the filing and granting of patent applications and the perfecting of title thereto in Assignee.
