ASSIGNMENT

WHEREAS, We, Michael R. Ricci, a resident of Camarillo, California, David B. Paden, a resident of Goleta, California, Brian J. Clark, a resident of Santa Barbara, California, Claire Cappe, a resident of Santa Barbara, California, Zachary J. Marshall, a resident of Venture, California, and Bradley E. Paden, a resident of Goleta, California United States of America, hereinafter referred to as the "Assignors" are joint inventors on certain new and useful improvements as described and set forth in a patent application in the United States Patent and Trademark Office entitled **AXIAL FLUX ELECTRICAL MACHINE ROTOR WITH MAGNET RETENTION DEVICE** having serial no. 17/496,098 (the "application") filed on 10/07/2021 claiming the priority of 63/090,224 filed on 10/10/2020 (the "provisional application")

WHEREAS, The LaunchPoint Electric Propulsion Solutions, Inc. a corporation of the State of Delaware, having a place of business at 5735 B Hollister Ave, Goleta, CA 93117, hereinafter referred to as "Assignee", desires to acquire the entire right, title and interest of the assignors in and to said provisional application, said inventions, said improvements, and any and all Letters Patent which may be granted thereon in the United States or any foreign country based on the priority of the provisional application:

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged by Assignors,

1. Assignors hereby sell, assign, transfer and convey to Assignee their entire worldwide right, title and interest in and to said application, said provisional application, said invention and said improvements, and in and to any and all patents on said invention and improvements that may be granted by the United States or any foreign country relying on the priority of said provisional application or said application, including any divisions, substitutions, continuations in whole or in part, conversions, reissues, additions or extensions thereof (jointly "the Patents"), said interest to be held and enjoyed by Assignee as fully and exclusively as it would have been held and enjoyed by said Assignors had this Assignment and transfer not been made.

2. Assignors hereby covenant, warrant and represent that they have not heretofore granted any license, right or privilege with respect to the Patents, invention or improvements or in any other way encumbered the same, and that they have the full right to make this Assignment.

3. Assignors further agree that at the request and expense of Assignee, but without charge to said Assignee, they will promptly execute all papers necessary or desirable to perfect ownership of said invention, improvements, or the Patents, in said Assignee, and will execute all oaths and other papers, within the truth, that are necessary or desirable for prosecuting said application, for use in interference proceedings involving said invention or improvements, for refiling of applications, or for filing of said divisional, substitution, continuation or continuation-in-part applications covering said invention or improvements which are deemed necessary or desirable by Assignee, for reissuance or reexamination of said patents, or for the filing in foreign countries of applications for patents covering said invention or improvements.

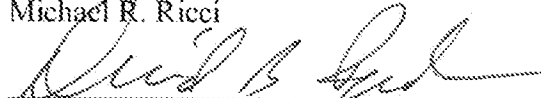

4. The terms, covenants and provisions of this Assignment shall inure to the benefit of Assignee, its successors, assigns and other legal representatives, and shall be binding upon Assignors, their heirs, legal representatives and assigns.

IN TESTIMONY WHEREOF, We have executed and delivered to Assignee this instrument on the date shown.
