PATENT APPLICATION ASSIGNMENT AGREEMENT

This **PATENT APPLICATION ASSIGNMENT AGREEMENT** (the “Agreement”), dated February 16, 2021 (the “Execution Date”), is entered into by and between Joshua B. Knotts and Jessica Barrera Knotts (collectively, the “Assignors”) and Body Flexor, LLC (the “Assignee”) and is effective as of February 16, 2021 (the “Effective Date”).

WHEREAS, Joshua B. Knotts and Jessica Barrera Knotts are the co-inventors and owners of United States Nonprovisional Utility Patent Application Serial Number 16/993,631 (collectively, the “Patent Applications”).

WHEREAS, Assignors have the right to convey all right, title, and interest in the Patent Applications and any resulting Patents (collectively, the “Patents”) to Assignee.

WHEREAS, Assignee wishes to acquire all right, title, and interest in the Patent Applications and any resulting Patents from Assignors.

NOW THEREFORE, for consideration of one dollar and for other good and valuable consideration, receipt of which is hereby acknowledged, and of the promises and mutual covenants herein contained and the applicable law, Assignors and Assignee (collectively the “Parties”), intending to be legally bound, agree as follows:

I. Assignment

Assignors hereby transfer all right, title, and interest in the Patent Applications and any resulting applications that claim priority thereto, including but not limited to all United States and foreign patent applications, divisionals, continuations, continuations-in-part, substitute applications, reexaminations, extensions, and reissues thereof, to Assignee and Assignee’s successors, representatives, and assigns. This transfer includes all right, title, and interest of Assignors in all causes of action and enforcement rights for the Patent Applications, including all of Assignors’ rights to pursue damages, injunctive relief, and other remedies for past, current, and future infringement of the rights granted by the Patent Applications and any resulting Patents as of the Effective Date.

II. Assignors' Representations and Warranties

- i) Assignors represent and warrant that they have legal right and authority to execute this Agreement and to validly assign the entire interest in the Patent Applications and any resulting Patents to the Assignee.
- ii) Assignors represent and warrant that they have not executed any other agreement, including an assignment or a license, that would conflict with the terms of this Agreement, nor shall they execute any such agreement in the future.
- iii) Assignors represent and warrant that the Patent Applications were filed in good faith as to their novelty. Assignors make no representations or warranties of the validity or enforceability of the Patent Applications and any resulting Patents after the Execution Date of this Agreement.
- iv) Assignors represent and warrant that, to their knowledge, there is currently no pending claim by a third party against Assignors regarding the Patent Applications.

III. Mutual Representations and Warranties

- i) Each of the Parties has the complete and unrestricted power and right to enter into this Agreement and to perform their obligations hereunder.
- ii) The execution, delivery, and performance of this Agreement by the Parties does not conflict with any agreement, instrument, or understanding, whether oral or written, to which the Parties are a party or by which one of the Parties may be bound, nor violate any law or regulation of any court, governmental body, or administrative or other agency having authority over the Parties.

IV. Disclaimer of Other Warranties

All representations and warranties, whether express or implied, except those as set forth in Article II and Article III, are specifically disclaimed.

V. Assignee's Duties

- i) Assignee assumes all duties and obligations with respect to the Patent Applications and shall be solely responsible for all fees associated with the Patent Applications and any resulting Patents, including fees from continuing prosecution, maintenance fees, and attorney's fees, arising from the perfection of title, right, and interest in the Patent Applications after the Execution Date.
- ii) Assignee shall be solely responsible for all legal expenses arising from enforcing and defending the rights granted by the Patent Application and any resulting Patents.
- iii) Assignee indemnifies the Assignors from any and all claims, actions, judgments, liabilities, proceedings, and costs arising from Assignee's performance of the Agreement.

VI. Assignors' Duties

- i) Assignors agree to execute all papers and perform all lawful acts, at Assignee's expense, as may be reasonably necessary for Assignee to maintain and perfect title to the Patent Applications.
- ii) Assignors agree to execute all papers and perform all lawful acts, at Assignee's expense, as may be reasonably necessary for Assignee to file additional patents and further protections as deemed necessary by the Assignee.
- iii) Assignors agree to cooperate with any subsequent re-examination or otherwise continued prosecution of the Patent Applications, including the prosecution of any foreign counterparts of the Patent Applications.

VII. Status of the Patent Applications

Assignee acknowledges that any finding that any Patent resulting from the Patent Applications is invalid or unenforceable after the Effective Date does not give rise to a cause of action against the Assignors.

VIII. Severability

If any portion of this Agreement is found to be invalid or unenforceable, for any reason, the remainder of the Agreement shall still be fully enforceable and effective.

IX. Governing Law

This Agreement shall be construed in accordance with, and governed by, the federal laws of the United States of America and the state laws of Wyoming.

X. Entire Agreement

This Agreement constitutes the entire agreement between the Parties with respect to the subject matter hereof, and merges and supersedes all prior and contemporaneous agreements, understandings, negotiations, and discussions, including any letter of intent. No oral agreement or explanation by either party hereto shall alter the meaning or interpretation of this Agreement. No amendments or modifications shall be effective unless in writing and signed by the Parties or authorized representatives of the Parties.

XI. Headings

The headings for the Articles are intended only for the purpose of reference and convenience and shall not affect the scope, meaning, or intent of any of the provisions of this Agreement, nor shall such headings be given any legal effect.
