RESCISSION AGREEMENT

This Rescission Agreement (the "Agreement") is entered into by The Board of Trustees of the Leland Stanford Junior University, a University of the State of California, having a place of business at 3000 El Camino Real, Building 5, Suite 300, Palo Alto, California 94306, ("Stanford"), and Anton Wyss-Coray residing in Stanford, California ("Wyss-Coray"). Stanford and Wyss-Coray shall be hereinafter collectively referred to as the "Parties," and may each be referred to individually as a "Party."

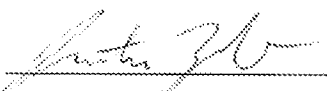

WHEREAS, Anton Wyss-Coray executed on November 18, 2008 an Assignment of his rights as a co-inventor on certain inventions (the "Invention(s)") described in a United States Patent Application entitled **COMPOUNDS FOR ACTIVATING TGF-BETA SIGNALING**, (the "Application") filed on October 10, 2008 as Application No. 12/249,577 to Stanford (the "2008 Assignment"), which was recorded with the U.S. Patent and Trademark Office at Reel/Frame 022587/0800 on January 1, 2009 and which now is U.S. Patent No. 8,097,645 with a related continuing application 13/323,679 which is now U.S. Patent No. 8,410,138;

WHEREAS, the Parties wish to rescind the 2008 Assignment in favor of a new assignment to be executed concurrently with this Agreement.

NOW, THEREFORE, the Parties by mutual consent hereto agree as follows:

1. Rescission of 2008 Assignment. The Parties agree that the assignment of rights of Anton Wyss-Coray to Stanford contained in the 2008 Assignment is hereby rescinded, it being understood and agreed that the rights to the Inventions that vest in Anton Wyss-Coray by virtue of law as a named co-inventor on the Application shall no longer as of the date of last signature below be assigned to Stanford by the 2008 Assignment. For the sake of clarity, this rescission applies only to the 2008 Assignment by Anton Wyss-Coray to Stanford and has no effect on the assignment of rights by co-inventor Mary J. Tanga; the assignment by the latter-named co-inventor remains in full force and effect.
2. Counterparts; Electronic or Facsimile Delivery. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. This Agreement may be signed and delivered to the other Party electronically or by facsimile; such transmission will be deemed a valid signature.

The Board of Trustees of the Leland Stanford Junior University Anton Wyss-Coray
