Assignors and Assignee are sometimes referred to herein collectively as the “Parties”.

WHEREAS, Assignors own the entire right, title, and interest in and to each of the following U.S. patents and patent applications, and all inventions disclosed and claimed by such patents and patent applications (the “Disclosed Inventions”):

Patent Title	Jurisdiction	Patent Application No./ Patent No.	Date of Patent
PUTTER HEAD	US	Application No.: 29/501,225 U.S. Pat. No. D741,965	October 27, 2015
PUTTER HEAD	US	Application No.: 29/506,213 U.S. Pat. No. D741,966	October 27, 2015
PUTTER HEAD	US	Application No.: 29/506,214 U.S. Pat. No. D741,967	October 27, 2015

WHEREAS, Assignee is desirous of securing the entire right, title, and interest in and to each and every invention described and/or claimed in the above Disclosed Inventions, throughout the United States of America and the territories thereof, and in all countries throughout the world. Assignors desire to assign to Assignee all of Assignors’ rights, title, and interests in and to the Patents; and

NOW, THEREFORE, be it known that, for good and valuable consideration, the receipt and sufficiency of which from Assignee is hereby acknowledged, Assignors and Assignee, each intending to be legally bound, hereby agree as follows:

Assignors have sold, assigned, transferred, and set over, and do hereby sell, assign, transfer, and set over unto Assignee, its lawful successors and assigns, the entire right, title, and interest of Assignors in and to the Disclosed Inventions, including: (i) the Patents; (ii) all rights of priority under the terms of any applicable conventions, treaties, statutes, or regulations, including without limitation the International Convention for Protection of Industrial Property for every member country; (iii) any and all legal actions and rights and remedies at law or in equity for past, present and future infringements, misappropriations, or other violations of the Patents, including the right to sue for, collect, and retain all damages, profits, proceeds, and all other remedies associated therewith; and (iv) any and all income, royalties, damages, and payments now or hereafter due or payable with respect to the Patents, for Assignee’s own use and enjoyment and for the use and

enjoyment of Assignee’s successors, assigns, or other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignors if this Assignment had not been made (together, the “Assigned Rights”);

AND HEREBY further covenant and agree that Assignors will, without further consideration, communicate with Assignee, its successors and assigns, any facts known to Assignors respecting the Disclosed Inventions, and testify in any legal proceeding, sign all lawful papers when called upon to do so, execute and deliver any and all papers that may be necessary or desirable to perfect the title to any and all of the Disclosed Inventions in said Assignee, its successors or assigns, make all rightful oaths and generally do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper patent protection for the Disclosed Inventions in the United States and any other country, it being understood that any expense incident to the execution of such papers shall be borne by the Assignee, its successors and assigns.

Assignors hereby authorize the Commissioner for Patents of the United States Patent and Trademark Office (“USPTO”) and any other official of any corresponding entities or agencies in any applicable jurisdictions to record and register this Assignment upon request by Assignee. Assignee shall have the right, at Assignee’s cost and expense, to record this Assignment with all applicable governmental authorities and registrars so as to perfect its ownership of the Assigned Rights. Assignee assumes all responsibility for payment of necessary maintenance fees by the USPTO deadlines and may allow one or both of the Patents to lapse through non-payment thereof.

This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.
