## Intellectual Property Assignment Agreement

This Intellectual Property Assignment Agreement ("**IP Assignment**"), dated as of January 25, 2021, is made by and between JTD Enterprises Consulting, Inc. ("**Seller**"), a Florida corporation, and **Dynamic Brands, LLC** ("**Buyer**"), a Virginia limited liability company, located at 2701 Emerywood Parkway, Richmond, Virginia 23294, the purchaser of certain assets of Seller.

**WHEREAS**, under the terms of an asset purchase and for other valuable consideration, Seller has conveyed, transferred, and assigned to Buyer, among other assets, certain intellectual property as listed in Exhibit A of Seller, and has agreed to execute and deliver this IP Assignment, for recording with the United States Patent and Trademark Office;

**NOW THEREFORE**, the parties agree as follows:

1. Trademark Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller has and hereby irrevocably conveys, transfers, and assigns to Buyer, and Buyer hereby accepts, all of Seller's right, title, and interest in and to the following:

(a) the trademark registration set forth on Exhibit A hereto and all issuances, extensions, and renewals thereof (the "**Assigned Trademark**"), together with the goodwill of the business connected with the use of, and symbolized by, the Assigned Trademark;

(b) all rights of any kind whatsoever of Seller accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(c) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(d) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Patent Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, hereby irrevocably conveys, transfers, and assigns to Buyer, and Buyer hereby accepts, the full, exclusive and entire right, title, and interest in and to the Seller's right, title, and interest in and to the following:

(a) the patents listed in Exhibit A, including in and to any division, continuation, continuation-in-part, substitution, reissue, renewal, reexamination, or request for continued examination thereof, and in and to all inventions and improvements thereon (the "**Assigned Patents**");

(b) for the same consideration, Seller agrees, without charge to Buyer, to sign all lawful papers, make all assignments and rightful oaths, assist in any prosecution of the Assigned Patents, assist in prosecution of legal proceedings, and generally do everything reasonably possible to aid Buyer its successors, assigns, and nominees, to obtain and enforce proper protection for all said inventions and improvements in all countries throughout the world; and

(c) for the same consideration, Seller also hereby sell, assign and transfer unto Buyer all rights and claims to sue for damages and other remedies including any and all past infringement of all the Assigned Patents including said inventions and improvements which may have occurred before the date of this Assignments.

3. Recordation and Further Actions. Seller hereby authorizes the Commissioner for Trademarks and the Commissioner for Patents in the United States Patent and Trademark Office to record and register this IP Assignment upon request by Buyer. Following the date hereof, Seller shall take such steps and actions, and provide such cooperation and assistance to Buyer and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the Assigned Trademark and the Assigned Patents to Buyer, or any assignee or successor thereto.

4. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

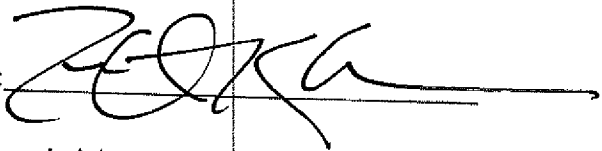

5. Successors and Assigns. This IP Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This IP Assignment and any claim, controversy, dispute, or cause of action (whether in contract, tort, or otherwise) based upon, arising out of, or relating to this IP Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the Commonwealth of Virginia, without giving effect to any choice or conflict of law provision or rule.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, Seller has duly executed and delivered this IP Assignment as of the date first written above.
