PATENT ASSIGNMENT
BY AND AMONG
1571322 ALBERTA LTD.,
ELDON SCHELSKE,
TODD COLI,
AND
EVOLUTION WELL SERVICES

JUNE 8, 2012

PATENT ASSIGNMENT

WHEREAS, 1571322 Alberta, Ltd. (f/k/a Evolution Well Service Inc.), an Alberta corporation ("**AlbertaCo**"), is the owner of U.S. Provisional Patent Application Serial No. 61/472,861 filed with the U.S. Patent and Trademark Office on April 7, 2011, U.S. Non-Provisional Patent Application No. 13/441,334, filed with the U.S. Patent and Trademark Office on April 6, 2012, PCT Patent Application No. PCT/US12/32572, filed with the U.S. Patent and Trademark Office on April 6, 2012, and the Canadian Patent Application (serial no. not yet designated) filed with the Canadian Patent Office on April 10, 2012, each titled "Mobile, Modular, Electrically Powered System for Use in Fracturing Underground Formations") (the "**Patent Applications**");

WHEREAS, Eldon Schelske ("**Mr. Schelske**") and Todd Coli ("**Mr. Coli**") are listed as inventors on the Patent Applications; and

WHEREAS, Evolution Well Services, an Alberta general partnership ("**Assignee**"), wishes to receive an assignment of all right, title and interest in and to the Patent Applications from AlbertaCo, Mr. Schelske and Mr. Coli (collectively the "**Assignors**").

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignors do hereby sell, assign, and transfer unto Assignee the entire right, title, and interest for the United States and all foreign countries in and to the Patent Applications, including any and all technology, improvements and inventions which are disclosed in or relate to the subject matter of the Patent Applications, and all provisional, non-provisional, divisional, continuing, substitute, renewal, reissue and all other applications for patent which have been or shall be filed in the United States and all foreign countries corresponding or relating to the Patent Applications or to any of such technology, improvements and inventions, all original and reissued patents which have been or shall be issued in the United States and all foreign countries corresponding or relating to the Patent Applications or to such technology, improvements and inventions, and specifically including the right to file foreign applications under the provisions of any convention or treaty and claim priority based on such applications in the United States and the right to sue and recover damages for past infringement on any of the foregoing items.

Assignors do hereby undertake that, when requested by Assignee to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all provisional, non-provisional, divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all technology, improvements and inventions; execute all rightful oaths, declarations, assignments, powers of attorney and other papers; communicate, explain and disclose to Assignee all facts and know-how known to the undersigned relating to the subject matter of such applications or to such technology, improvements and inventions and the history thereof; and generally do everything possible which Assignee shall consider desirable for securing, maintaining and enforcing proper patent protection for the subject matter of such applications or to such technology, improvements and inventions and for vesting Assignee's title to the patents and patent applications or to such technology, improvements and inventions in Assignee.

Assignors do also hereby undertake to do and perform, sign, swear and execute all such further and other acts, deeds, documents, matters or things as may be required by Assignee or considered necessary, desirable or proper by Assignee to give effect to the transfer and assignment of the Patent Applications and the related rights set forth herein.
