- b) any patent applications resulting from said Patent Applications, including any and all related United States and foreign patent applications disclosing said invention(s), including provisionals, non-provisionals, divisions and continuations thereof, along with the rights of priority created by said patent applications under any treaty relating thereto;
- c) United States and foreign patents which may be granted on any and all of said Patent Applications, including extensions, reissues and reexamination certificates thereof; and

said patent applications, patent(s) and invention(s) to be held and enjoyed by the above-named ASSIGNEE, for ASSIGNEE's own use and benefit, and for ASSIGNEE's successors and assigns to the full end of the term or terms for which said patent(s) may be granted, as fully and entirely as the same would have been held by the undersigned ASSIGNORS had this assignment
