**CONFIRMATORY ASSIGNMENT**

WHEREAS, Joshua J. Smith, Joseph Aschenbrenner, and Gilbert Troy Meier, hereinafter called the "Assignors," have made the invention described in the International patent application entitled Well Bore Conditioner and Stabilizer, being identified as International Patent Application No. PCT/US2018/050208, filed September 10, 2018; in the United States patent application entitled Well Bore Conditioner and Stabilizer, being identified as United States Patent Application No. 16/126,394, filed September 10, 2018; in the United States provisional patent application entitled Well Bore Conditioner and Stabilizer, being identified as United States Provisional Patent Application No. 62/649,666, filed March 29, 2018; and in the United States provisional patent application entitled Well Bore Conditioner and Stabilizer, being identified as United States Provisional Patent Application No. 62/556,379, filed September 9, 2017;

WHEREAS, Extreme Technologies, LLC, a corporation organized and existing under the laws of the state of Utah, having a place of business 1583 South 1700 East, Vernal, UT, 84078, hereinafter called the "Assignee", desires to acquire the entire right, title and interest in and to the invention and the patent application identified above, and all patents which may be obtained for said invention, as set forth below;

WHEREAS, Joshua J. Smith executed and had notarized an assignment of the aforementioned patent applications to the Assignee on March 20, 2019;

WHEREAS, Joseph Aschenbrenner executed and had notarized an assignment of the aforementioned patent applications to the Assignee on March 29, 2019;

WHEREAS, Gilbert Troy Meier executed and had notarized an assignment of the aforementioned patent applications to the Assignee on March 27, 2019;

WHEREAS, Gilbert Troy Meyer, as Chairman, CEO and Member of the Assignee, executed and had notarized on behalf of the Assignee an assignment of the aforementioned patent applications on July 7, 2019;

WHEREAS, the United States Patent and Trademark Office recorded the previously executed assignments of International Patent Application No. PCT/US2018/050208, filed September 10, 2018 and United States Patent Application No. 16/126,394 from the Assignors to the Assignee on June 10, 2019 at Reel 049416/Frame 0836;

WHEREAS the Assignors and the Assignee wish to confirm the previously executed and recorded assignment of the aforementioned patent applications;

NOW, THEREFORE, in consideration of legally sufficient consideration, the receipt of which by the Assignors from the Assignee is hereby acknowledged, the Assignors have sold, assigned and transferred, and by these presents do sell, assign and transfer to the Assignee, the entire right, title and interest for the United States in and to the invention and the patent application identified above, and any patents that may issue for said invention in the United States; together with the entire right, title and interest in and to said invention and all patent applications and patents issuing therefrom in all countries foreign to the United States, including the full right to claim for any such application all benefits and priority rights under any applicable convention; together with the entire right, title and interest in and to all continuations, divisions, renewals and extensions of any of the patent applications and patents defined above; together with the right to recover all damages, including, but not limited to, a reasonable royalty, by reason of past, present, or future infringement or any other violation of patent or patent application rights; to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, to the full end of the term or terms for all such patents. The Assignors hereby sell, assign, and transfer the entire right, title and interest to the Assignee as of the day of filing the application identified above.

The Assignors hereby covenant and agree, for both the Assignors and the Assignors' legal representatives, that the Assignors will assist the Assignee in the prosecution of the patent application identified above; in the making and prosecution of any other patent applications that the Assignee may elect to make covering the
