PATENT SECURITY AGREEMENT

This **PATENT SECURITY AGREEMENT**, dated as of November 12, 2021 (as amended, restated, supplemented or otherwise modified from time to time, this “**Patent Security Agreement**”), is made by the entity identified as the GRANTOR on the signature pages hereto (the “**Grantor**”) in favor of Antares Capital LP, as administrative agent for the Secured Parties (in such capacity and together with its successors and permitted assigns in such capacity, the “**Administrative Agent**”).

WHEREAS, the Grantor is party to that certain Security Agreement dated as of November 12, 2021 (as amended, restated, supplemented or otherwise modified from time to time, the “**Security Agreement**”), among the Grantor, the other grantors party thereto, and the Administrative Agent pursuant to which the Grantor granted a security interest to the Administrative Agent in the Patent Collateral (as defined below) and is required to execute and deliver this Patent Security Agreement.

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Grantor hereby agrees with the Administrative Agent as follows:

SECTION 1. DEFINED TERMS

Unless otherwise defined herein, terms defined in the Security Agreement and used herein have the meaning given to them in the Security Agreement.

SECTION 2. GRANT OF SECURITY INTEREST

The Grantor, as security for the payment and performance in full of the Secured Obligations of the Grantor (including, if the Grantor is a Guarantor, the Secured Obligations of the Grantor arising under the Guaranty), hereby pledges to the Administrative Agent, its successors and permitted assigns, for the benefit of the Secured Parties, and hereby grants to the Administrative Agent, its successors and permitted assigns, for the benefit of the Secured Parties, a security interest in all right, title or interest in or to any and all of the following assets and properties now owned or at any time hereafter acquired by the Grantor or in which the Grantor now has or at any time in the future may acquire any right, title or interest (collectively, the “**Patent Collateral**”):

- (i) all United States issued and applied for Patents, including those listed on Schedule A hereto,
- (ii) all reissues, reexaminations, continuations, divisionals, continuations-in-part, renewals, improvements or extensions thereof, and the inventions or designs disclosed or claimed therein, including the right to make, use and/or sell the inventions or designs disclosed or claimed therein,
- (iii) all rights to sue or otherwise recover for any past, present and future infringement, violation or other impairment thereof, and
- (iv) all Proceeds now or hereafter due or payable under or with respect to the foregoing, including payments under all licenses entered into in connection therewith and damages and payments for past, present or future infringements or other violations or impairments thereof, and

(v) all rights corresponding thereto throughout the world;

provided that the Patent Collateral shall not include any Excluded Assets.

SECTION 3. SECURITY AGREEMENT

The security interest granted pursuant to this Patent Security Agreement is granted in conjunction with the security interest granted to the Administrative Agent for the Secured Parties pursuant to the Security Agreement, and the Grantor hereby acknowledges and affirms that the rights and remedies of the Administrative Agent with respect to the security interest in the Patent Collateral made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. In the event that any provision of this Patent Security Agreement is deemed to conflict with the Security Agreement, the provisions of the Security Agreement shall control.

SECTION 4. RECORDATION

The Grantor hereby authorizes and requests that the USPTO record this Patent Security Agreement.
