ASSIGNMENT

Patent No.	Appl. No.	Filing Date
U.S. 10,379,097	15/147,303	May 5, 2016

In consideration of good and valuable considerations in hand paid, the receipt and sufficiency whereof are hereby acknowledged, MXNS Digital Solutions LLC, a Delaware limited liability corporation having a principle place of business at 401 N. Michigan Ave., Suite 1400, Chicago, IL 60611 (“Assignor”), hereby assigns to Silliker, Inc., a Delaware corporation (“Assignee”), and its successors and assigns, the entire right, title and interest in the patent application identified above, and any inventions and improvements disclosed therein, and any continuation, continuation-in-part, divisional, reexamination, reissue, and extension of such applications, and any other application including said inventions and improvements, and any Letters Patent of the United States and other jurisdictions, which may be obtained on any of said applications, inventions, and improvements (collectively, the “Assigned Properties”), and further assigns to Assignee the priority right provided by the International Convention for the Assigned Properties.

Assignor hereby authorizes and requests the Commissioner of the USPTO to issue Letters Patents for the Assigned Properties to Assignee.

Assignor warrants to be the owner of the entire right, title and interest in the Assigned Properties and to have the right to make this assignment, and further warrant that there are no outstanding prior assignments, licenses, or other encumbrances on the Assigned Properties.

For said considerations, Assignor hereby agrees, upon the request and at the expense of Assignee, and its successors and assigns, to execute any documents required for the Assigned Properties, including any oath, affidavit, or declaration relating thereto, and any other documents that Assignee, its successors or assigns, may deem necessary or expedient. Assignor authorizes Assignee, and its successors and assigns, to file patent applications for any inventions and improvements disclosed in the Assigned Properties in Assignee’s own name, and its successors and assigns, in such countries where such procedure is proper and further agree, upon the request of Assignee, its successors and assigns, to cooperate to the best of the ability of the Assignor with Assignee, its successors and assigns, in any proceedings or transactions involving the Assigned Properties, including the preparation and execution of preliminary statements, giving and producing evidence, and performing any and all other acts necessary to obtain said Letters Patent, both the United States and other jurisdictions, and to vest all rights hereby conveyed in Assignee, its successors and assigns, whereby said Letters Patent will be held and enjoyed by Assignee, its successors and assigns, to the full end of the term for which said Letters Patent will be granted, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.
