ASSIGNMENT

WHEREAS we, Wendell B. Colson, Kevin M. Dann, Matthew A. DiFrancesco, Daniel Fluckey, Joseph E. Kovach, and Michael J. Siebenaller (the "Inventors"), residing respectively at, 14 Byron Road, Weston, MA 02493, 6071 S. Lima Way, Englewood, CO 80111, 10 Squire Court, #8, Natick, MA 01760, 1065 S. Alcott St., Denver, CO 80219, 318 Timber Lane, Boulder, CO 80304 and 13971 Silverton Dr., Broomfield, CO 80020 are the joint inventors of an invention in **Methods and Apparatus for Controlling Architectural Opening Coverings in More Than One Mode** which invention we have executed a United States provisional patent application bearing serial number **62/278,981** filed **January 14, 2016** and we are entitled to assign our entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention, including the European patent application therefor; and

WHEREAS Hunter Douglas Inc. (the "Company"), having a place of business at 1 Blue Hill Plaza, Pearl River, NY 10965 USA, is desirous of obtaining our entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention, including the US patent application and any Canadian patent application therefor;

NOW THEREFORE, in good and valuable consideration, we hereby sell, assign and transfer to the Company, its successors, legal representatives and assigns, our entire right, title and interest world-wide in and to the invention and all applications for industrial property protection, including, without limitation, all applications for patents, utility models and designs, whether original, divisional, continuation, renewal, reissue, or the like, now on file or subsequently filed, for the invention world-wide, together with the right to file such applications and the right to claim for such applications the priority rights derived from the European patent application under any national or international intellectual property laws or agreements and any industrial property protection including, without limitation, patents, utility models and designs, now or hereafter granted, for the invention world-wide, and any extensions, renewals, reissues or the like thereof.

FURTHER we hereby authorize and request any official of any state, responsible for issuing patents or other evidence or forms of any industrial property protection, to issue the same for the invention to the Company, its successors, legal representatives and assigns, in accordance with this assignment.

ALSO we hereby agree that we have the full right to convey our entire, right, title and interest in and to the invention world-wide and all applications for industrial property protection for the invention world-wide and that we have not executed, and will not execute, any agreement in conflict with this assignment.

MOREOVER we hereby agree that we will communicate to the Company, its successors, legal representatives and assigns any facts known to us respecting the invention and testify in any legal proceeding, sign any lawful papers, execute any original, divisional, continuation and reissue applications, make any rightful oaths, and generally do everything possible to aid the Company, its successors, legal representatives and assigns to obtain and enforce proper protection for the invention world-wide.

FURTHER we hereby agree that this assignment is to be considered effective as of the earlier of (1) the date of execution herein below or (2) the filing date of the first-filed patent application, and we hereby authorize the Company, its successors and assigns, or anyone it may properly designate, to insert in this instrument the number of the first-filed patent application.

ASSIGNMENT

WHEREAS I, **Jeffrey L. Spray**, residing at 321 Sanders Circle, Erie, CO 80516 (the "Inventor"), am a joint inventor of an invention in **Methods and Apparatus for Controlling Architectural Opening Coverings in More Than One Mode** which invention I executed a United States patent application bearing serial number **15/405,276** filed January 12, 2017, a provisional patent application bearing serial number **62/308,775** filed March 15, 2016, and provisional patent application bearing serial number **62/278,981** filed January 14, 2016, and am entitled to assign my entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention; and

WHEREAS Hunter Douglas Inc. (the "Company"), having a place of business at 1 Blue Hill Plaza, Pearl River, NY 10965 USA, is desirous of obtaining our entire right, title and interest world-wide in and to the invention and any intellectual property protection for the invention, including the US patent application and any Canadian patent application therefor;

NOW THEREFORE, in good and valuable consideration, I/we hereby sell, assign, and transfer to the Company, its successors, legal representatives, and assigns, my/our entire right, title, and interest world-wide in and to the invention and all rights, in and to and to file, applications for intellectual property protection, including, without limitation, all applications for patents, utility models, and designs, whether original, divisional, continuation, continuation-in-part, renewal, reissue, reexaminations, substitutes, inventor certificates, or the like, now on file or subsequently filed, for the invention world-wide, together with the right to file such applications and the right to claim for such applications the priority rights derived from any application filed throughout the world in respect of the invention under any national or international intellectual property laws or agreements and any intellectual property protection including, without limitation, patents, utility models, and designs, now or hereafter granted, for the invention world-wide, and any extensions, renewals, reissues, or the like thereof all rights to any legal equivalent thereof in a foreign country such as patents of addition, utility models, patents of importation, revalidation patents and inventor certificates. I/we, our successors and assigns, in accordance with this Assignment hereby transfer all rights of action, power, and benefit belonging to or accruing from the invention including the right to undertake proceedings to recover past, present, and future damages or profits and claim all other relief or remedies in respect of any acts of infringement thereof whether such acts shall have been committed before or after the date of this assignment.

FURTHER I/we hereby authorize and request any official of any state, responsible for issuing patents or other evidence or forms of any intellectual property protection, to issue the same for the invention to the Company, its successors, legal representatives, and assigns, in accordance with this assignment for the Company's sole use and benefit, and for the sue and benefit of the Company's successors and assigns, to the full end of the term for which any such patent may be grants.

ALSO I/we hereby agree that I/we have the full right to convey our entire, right, title and interest in and to the invention world-wide and all applications for intellectual property protection for the invention world-wide and that we have not executed, and will not execute, any agreement in conflict with this assignment.
