ASSIGNMENT

WHEREAS, JONATHAN S. JENSEN, residing in Pocatello, Idaho, United States of America, hereinafter called the "Assignor", has made and is a joint inventor to the inventions entitled:

- "MEDIA CONTROL DEVICES, SYSTEMS AND METHODS", described in United States Patent Application Serial No. 17/530,436, filed on November 18, 2021; and
- "MEDIA CONTROL DEVICES, SYSTEMS AND METHODS", described in United States Patent No. _____, issued on _____;

WHEREAS, KIRK LEPCHENSKE, residing in Pocatello, Idaho, United States of America, hereinafter called the "Assignee", desires to acquire the entire rights, titles, and interests in and to the inventions, patent application and patent identified above, and any and all patent applications and patents which may be filed and obtained therefrom and pertaining thereto, anywhere in the world, as set forth below.

To the extent not already included above, Assignor authorizes and requests Assignee and its assigns and authorized legal representatives, to insert any of the additional information relating to the inventions when known.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other valuable and legally sufficient consideration, the receipt and sufficiency of which by the Assignor from the Assignee is hereby acknowledged, the Assignor hereby sells, assigns, conveys and transfers to the Assignee, Assignor's entire rights, titles, and interests for the United States and all countries foreign to the United States, in and to the inventions, patent application and patent identified above, and any and all patent applications and patents filed and obtained therefrom or pertaining thereto, in the United States and in all countries foreign to the United States, including the full right to claim all benefit and priority rights to the same under any applicable convention; together with the Assignor's entire rights, titles, and interests in and to any and all continuations, continuation-in-parts, divisions, reissues, renewals and extensions of any and all patent applications and patents described herein; together with the right to pursue all legal means and to recover all damages, including, but not limited to, all reasonable royalties, by reason of any past, present, or future infringement or any other violation of any patent rights or other applicable laws and rights, anywhere in the world, pertaining to any and all patent applications and patents described herein; and to have and to hold for the sole and exclusive use and benefit of the Assignee, its successors and assigns, any and all patent applications and patents described herein, to the full end of their terms.

The Assignor hereby covenants and agrees, for both the Assignor and the Assignor's legal representative, that the Assignor will:

- a. assist the Assignee, at the Assignor's expense, in the making and prosecution of any and all patent applications and patents described herein that the Assignee may elect to make covering the inventions identified above;

- b. assist the Assignee in vesting in the Assignee like exclusive title in and to all patent applications and patents described herein; and
- c. execute and deliver to the Assignee any and all additional papers which may be requested by the Assignee to carry out the terms of this Assignment.

The Commissioner of Patents and Trademarks is hereby authorized and requested to issue patents to the Assignee in accordance with the terms of this Assignment. This Assignment may be executed in any number of counterparts, each of which shall be an original and all of which, taken together, shall constitute a single Assignment. All of the terms, conditions and covenants of this Assignment shall be binding upon and shall inure to the benefit of the heirs, personal representatives, successors and assigns of the parties hereto.
