SYSTEMS AND METHODS FOR TOKENIZATION TO SUPPORT PSEUDONYMIZATION OF SENSITIVE DATA in U.S. Application Serial Number 16/054,081, filed on August 3, 2018.

and in and to any and all improvements to these inventions including: (1) said application and all utility, divisional, continuing, substitute, renewal, reissue, and all other patent applications which have been or shall be filed in the United States and all foreign countries on any of said improvements; (2) in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on said improvements; (3) to any foreign applications filed from said United States patent application including any Paris Cooperation Treaty (PCT) application(s) and any foreign national stage application(s) claiming priority from said PCT and/or said United States patent application(s); and (4) in and to all rights of priority (both domestic and foreign) to and from the filing of said United States patent application(s) or PCT application(s) any and all domestic and foreign applications resulting from the filing of said United States patent application(s) or PCT application(s); and

Agree that said Assignee may apply for and receive patents for said improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns and legal representatives, to carry out in good faith the intent and purpose of this Assignment, the undersigned will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns, and representatives, all facts known to the undersigned relating to said improvements and the history thereof; and generally do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in securing and maintaining proper patent protection for said improvements and for vesting title to said improvements and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns and legal representatives; and

Covenant with said Assignee, its successors, assigns and legal representatives that no assignment, grant, mortgage, license or other agreement affecting the rights and property

herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
