**TERMINATION AND RELEASE OF  
SECOND INTELLECTUAL PROPERTY SECURITY AGREEMENT**

This Termination and Release of Second Intellectual Property Security Agreement (this “Patent Release”) is made as of November 24, 2021, by **GOLUB CAPITAL LLC**, a Delaware limited liability company, in its capacity as administrative agent for the Lenders (as defined in the Loan and Security Agreement referenced below) (“Agent”), **CLOUDBEES, INC.**, a Delaware corporation (“CloudBees”) and **ELECTRIC CLOUD, INC.**, a Delaware corporation (“Electric Cloud” and, together with CloudBees, individually and collectively, the “Grantor”).

WHEREAS, Grantor entered into that certain Loan and Security Agreement, dated as of May 16, 2018, by and among the Grantor and the Agent (as amended, restated, supplemented or otherwise modified from time to time, the “Loan Agreement”). All capitalized terms used but not defined herein shall have the respective meanings given to them in the Loan Agreement.

WHEREAS, pursuant to the terms of the Loan Agreement, Grantor entered into that certain Intellectual Property Security Agreement in favor of Agent, dated as of May 16, 2018 (as amended, restated, supplemented or otherwise modified from time to time, the “First IPSA”), to grant to the Agent for the benefit of the Lenders a security interest (the “Security Interest”) in all of Grantor’s right, title and interest in, to and under all of the Intellectual Property Collateral (the “Intellectual Property Collateral”), including without limitation, the following: (a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work of authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held, including without limitation those set forth on Exhibit A attached hereto (collectively, the “Copyrights”); (b) All patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions, re-examination certificates, utility models, and continuations-in-part of the same, including without limitation the patents and patent applications set forth on Exhibit B attached hereto (collectively, the “Patents”); and (c) Any trademark and servicemark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks (other than applications filed on an “intent to use” basis), including without limitation those set forth on Exhibit C attached hereto (collectively the “Trademarks”);

WHEREAS, Electric Cloud entered into a Joinder Agreement, dated as of May 29, 2019 (the “Joinder Agreement”), pursuant to which Electric Cloud became a Guarantor and a Loan Party under the Loan Agreement;

WHEREAS, pursuant to the Loan Agreement and the Joinder Agreement, the Grantor entered into that certain Second Intellectual Property Security Agreement, dated as of May 29, 2019 (the “Second IPSA”) in which the Grantor granted to the Agent a Security Interest in Patents which was recorded with the Patent Division of the United States Patent and Trademark Office (the “USPTO”) on May 29, 2019 at Reel 049314, Frame 0377; and

WHEREAS, the Grantor has requested that the Agent execute this Patent Release in order to terminate and release the Agent’s Security Interest in the Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged:

1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Loan Agreement.

2. Release of Lien. The Agent hereby terminates the Security Interest in Patents and hereby, without any representation or warranty, (i) terminates, cancels and releases its Security Interest and all other liens and security interests that it has in, to and under the Patents and (ii) reassigns, grants and conveys to each Grantor any and all right, title and interest it has in the Patents, in each case, including, without limitation, those Patents referred to on Exhibit B attached hereto and all the goodwill of the businesses with which the Patents are associated.

3. Authorization to Record. The Agent authorizes and requests that this Patent Release be filed with the USPTO and any applicable government officer record this Patent Release.

4. Governing Law. This Patent Release and the rights and obligations of the parties hereto shall be governed by, and construed and enforced in accordance with, the laws of the State of New York, excluding conflict of laws principles that would cause the application of laws of any other jurisdiction.

This Patent Release may be executed in any number of separate counterparts, each of which when so delivered shall be deemed an original, but all of which counterparts shall constitute but one and the same instrument. Delivery of an executed counterpart of a signature page of this Patent Release by facsimile, portable document format (.pdf) or other electronic transmission will be as effective as delivery of a manually executed counterpart hereof.

*[Remainder of Page Intentionally Left Blank]*

**IN WITNESS WHEREOF**, the undersigned has caused this Patent Release to be duly executed as of the date first written above.
