(a) the patent applications set forth on Schedule 1 hereto, all inventions described and claimed therein, all patents issuing thereon, all divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals of or based on any of said patent applications or patents issuing thereon, all legal equivalents thereof in a foreign country and any applications claiming priority thereto for the full term or terms for which the same may be granted (the "Patent Applications");

(b) all rights to claim priority to any of the Patent Applications;

(c) all rights of any kind whatsoever of Assignor in the Assigned IP accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(d) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(e) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents, the United States Patent and Trademark Office, and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Assignee. Following the date hereof, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the Assigned IP to Assignee, or any assignee or successor thereto.

3. Assignor hereby represents and warrants that it has full right to convey the entire interest herein assigned, and that it has not executed, and covenants that it will not execute, any agreement in conflict with this IP Assignment.
