WHEREAS, ASSIGNORS were previously employees of, consultants to, contractors with, or otherwise affiliated with or related or obliged to, Fusion Packaging I, LP, of 2608 Inwood Road, Suite 200, Dallas, Texas 75235 ("Original Assignee"), and ASSIGNORS thusly provided services to Original Assignee in furtherance of Original Assignee's business;

WHEREAS, on or about March 23, 2020, Original Assignee executed a Certificate Of Conversion, for purposes of effecting, and thereby converting, from a Texas limited partnership to ASSIGNEE (that is, to a Delaware limited liability company, with the name Fusion Packaging I, LLC);

WHEREAS, Original Assignee had, and ASSIGNEE has, operational matters including, but not limited to, any one or more of conception, invention, development, and implementation of designs, products, apparatus, methodologies, and other aspects to develop and advance Original Assignee and ASSIGNEE's business, and ASSIGNORS have performed the same for Original Assignee and ASSIGNEE, including the invention referred to with the title "**Dispenser and Dropper Co-pack Assembly**" for which application for United States patent is made (the Invention) and was filed on July 3, 2018, and given serial number 29/655,486; and

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, each of ASSIGNORS hereby sells and assigns to ASSIGNEE, its successors and assigns, the ASSIGNOR'S entire right, title, and interest in and to the Invention and in and to any patent application and all patents which may be granted therefor, and all designs, divisions, reissues, substitutions, continuations, and extensions thereof; and each ASSIGNOR hereby authorizes and requests the Commissioner of Patents and Trademarks to issue all patents for said Invention, or patent resulting therefrom, insofar as each ASSIGNOR'S interest is concerned, to ASSIGNEE, as assignee of the ASSIGNOR'S entire right, title, and interest.

Each of ASSIGNORS hereby further agrees that the ASSIGNOR will communicate to ASSIGNEE, or to its successors, assigns, and legal representatives, any facts known to the ASSIGNOR respecting said Invention, and at the expense of ASSIGNEE, testify in any legal proceedings, sign all lawful papers, execute all divisional, continuation, reissue and substitute applications, make all lawful oaths, and generally do everything possible to aid said ASSIGNEE,

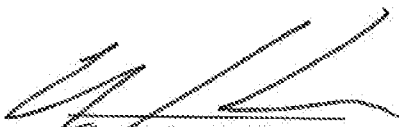

its successors, assigns and nominees to obtain and enforce proper patent protection for said Invention in all countries.
