ASSIGNMENT OF PATENT APPLICATION

Whereas I, an undersigned inventor, have developed certain new and useful improvements and inventions as set forth in the patent application entitled:

PNEUMATIC SYSTEM FOR FLUID MIXTURE DISPENSING DEVICE

for which I have executed a U.S. patent application on even date herewith.

For good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, an undersigned inventor, hereby:

- 1) Sell, assign and transfer to Cana Technology, Inc., a Delaware corporation having an address at 1204 Middlefield Road, Redwood City, California ("ASSIGNEE"), the entire right, title and interest in: (i) any and all improvements and inventions disclosed in the above referenced application; (ii) the above referenced application and any and all patent applications based upon the above referenced application, including any divisional, continuation, substitute, renewal, reexamination or reissue application, and any patent application, including both foreign and domestic, that claims priority to the above referenced application ("the APPLICATIONS"); and (iii) any patents granted upon the APPLICATIONS ("the PATENTS"); including the right to claim priority generally, the right to claim priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may be substituted for it, and the right to sue for past damages for infringement of any of the PATENTS.
- 2) Agree that ASSIGNEE may apply for and receive patents resulting from the APPLICATIONS in its own name, and authorize and request the Commissioner of Patents to issue any and all United States Patents resulting from the APPLICATIONS to the ASSIGNEE.
- 3) Agree to execute all papers and documents in connection with the prosecution of the APPLICATIONS and the enforcement of the PATENTS, and entirely at the ASSIGNEE's expense, perform any acts which are reasonably necessary in connection with the prosecution of the APPLICATIONS and the enforcement of the PATENTS.
- 4) Agree that the terms, covenants and conditions of this assignment shall inure to the benefit of the ASSIGNEE, its successors, assigns and other legal representatives, and shall be binding upon the inventor, as well as the inventor's heirs, legal representatives and assigns.
- 5) Warrant and represent that I have not entered and will not enter into any assignment, contract, or understanding that conflicts with this assignment.

Signed on the date indicated beside my signature.

EMPLOYEE CONFIDENTIAL INFORMATION, INVENTIONS ASSIGNMENT, AND ARBITRATION AGREEMENT

In consideration of my employment or continued employment by **Cana Technology, Inc.** ("**Employer**"), and its subsidiaries, parents, affiliates, successors and assigns (together with Employer, "**Company**"), the compensation paid to me now and during my employment with Company, and Company's agreement to provide me with access to its Confidential Information (as defined below), I enter into this Employee Confidential Information, Inventions Assignment, and Arbitration Agreement with Employer (the "**Agreement**"). Accordingly, in consideration of the mutual promises and covenants contained herein, Employer (on behalf of itself and Company) and I agree as follows:

2. Assignments of Inventions.

2.1 **Definitions.** The term (a) ***“Intellectual Property Rights”*** means all past, present and future rights of the following types, which may exist or be created under the laws of any jurisdiction in the world: trade secrets, Copyrights, trademark and trade name rights, mask work rights, patents and industrial property, and all proprietary rights in technology or works of authorship (including, in each case, any application for any such rights and any rights to apply for any such rights, as well as all rights to pursue remedies for infringement or violation of any such rights); (b) ***“Copyright”*** means the exclusive legal right to reproduce, perform, display, distribute and make derivative works of a work of authorship (for example, a literary, musical, or artistic work) recognized by the laws of any jurisdiction in the world; (c) ***“Moral Rights”*** means all paternity, integrity, disclosure, withdrawal, special and similar rights recognized by the laws of any jurisdiction in the world; and (d) ***“Company Inventions”*** means any and all Inventions (and all Intellectual Property Rights related to Inventions) that are made, conceived, developed, prepared, produced, authored, edited, amended, reduced to practice, or learned or set out in any tangible medium of expression or otherwise created, in whole or in part, by me, either alone or with others, during my employment by Company, and all printed, physical, and electronic copies, and other tangible embodiments of Inventions.

2.4 **Assignment of Company Inventions.** I hereby assign to Employer all my right, title, and interest in and to any and all Company Inventions other than Nonassignable Inventions and agree that such assignment includes an assignment of all Moral Rights. To the extent such Moral Rights cannot be assigned to Employer and to the extent the following is allowed by the laws in any country where Moral Rights exist, I hereby unconditionally and irrevocably waive the enforcement of such Moral Rights, and all claims and causes of action of any kind against Employer or related to Employer’s customers, with respect to such rights. I further agree that neither my successors-in-interest nor legal heirs retain any Moral Rights in any Company Inventions. Nothing contained in this Agreement may be construed to reduce or limit Company’s rights, title, or interest in any Company Inventions so as to be less in any respect than that Company would have had in the absence of this Agreement.

2.8 Enforcement of Intellectual Property Rights and Assistance . I will assist Company, in every way Company requests, including signing, verifying and delivering any documents and performing any other acts, to obtain and enforce United States and foreign Intellectual Property Rights and Moral Rights relating to Company Inventions in any jurisdictions in the world. My obligation to assist Company with respect to Intellectual Property Rights relating to Company Inventions will continue beyond the termination of my employment, but Company will compensate me at a reasonable rate after such termination for the time I actually spend on such assistance. If Company is unable for any reason, after reasonable effort, to secure my signature on any document needed in connection with the actions specified in this paragraph, I hereby irrevocably designate and appoint Employer and its duly authorized officers and agents as my agent and attorney in fact, which appointment is coupled with an interest, to act for and on my behalf to execute, verify and file any such documents and to do all other lawfully permitted acts to further the purposes of this Agreement with the same legal force and effect as if executed by me. I hereby waive and quitclaim to Company any and all claims, of any nature whatsoever, which I now or may hereafter have for infringement of any Intellectual Property Rights assigned to Employer under this Agreement.

This Agreement will be effective as of the date signed by the Employee below.

Employee:

I have read this agreement carefully and understand its terms.
