IP AND TECHNOLOGY ASSIGNMENT

For good and valuable consideration given to me by Halliburton Energy Services, Inc., and any other valuable consideration, the receipt and sufficiency of which are hereby acknowledged, I, Michel LeBlanc (“**Assignor**”), having jointly or solely made an invention in “Measurement System With Disposable Fiber With Strain Coupling In Lateral Wells” (“**Invention**”), while in the employ or hire either as an employee, consultant, or contractor of Halliburton Energy Services, Inc., a corporation organized and existing under the laws of the State of Delaware, doing business at 3000 N. Sam Houston Parkway E., Houston, TX 77032-3219 (“**Assignee**”), do hereby irrevocably assign, sell, transfer, and convey to **Assignee**, its successors, and assigns, my entire right, title, and interest throughout the world in and to:

1. Said **Invention** in “Measurement System With Disposable Fiber With Strain Coupling In Lateral Wells;”
2. U.S. Utility Patent Application No. 17/643,755 on said Invention entitled, “Measurement System With Disposable Fiber With Strain Coupling In Lateral Wells,” filed December 10, 2021 (Attorney’s Reference No. 140846-090700US);¹
3. all applications for patent or like protection on the **Invention** that have now been or may in the future be made anywhere in the world, including any substitution, divisional, continuation, continuation-in-part, renewal, reissue, extension, reexamination, issuance, and any other utility or design applications, including without limitation, those obtained or permissible under past, present, and future laws and statutes;
4. all patents and the like protection that have now been or may in the future be granted on the **Invention** anywhere in the world;
5. all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing;
6. all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, misappropriation, violation, breach, or default;

¹ **Assignor** further authorizes the **Assignee** or its representatives to insert the serial number and filing date of patent applications related to the **Invention** as soon as they are known as well as to attach and update a schedule of any further application serial numbers or patent numbers related to the **Invention** as they become known.

7. all rights in **Assignee** to file in its name applications for patents and like protection for the **Invention** in any country or countries in the world;
8. all rights of priority associated with the **Invention**, applications, patents, and like protection anywhere in the world; and
9. other rights, privileges, and protections of any kind whatsoever of **Assignor** accruing under any of the foregoing provided at law or in equity throughout the world.

Assignor covenants that **Assignor**, its heirs, legal representatives, assigns, administrators, and executors will, at the expense of **Assignee**, its successors, and assigns, execute all papers and perform such other acts as may be reasonably necessary to give **Assignee**, its successors, and assigns, the full benefit of this Assignment.

Further, **Assignor** warrants that the **Invention** is not encumbered by another assignment or obligation of assignment to a third-party and that **Assignor** has the full ability and authority to assign and encumber the **Invention**.

IN WITNESS WHEREOF, the parties hereto have duly executed this Assignment as of the date first above written.
