PATENT ASSIGNMENT

Trover Group Inc. ("Assignor"), a Texas corporation with its principal offices at 10750 Forest Lane, Dallas, Texas 75243, is the owner of the patents listed on the attached Schedule A ("the Patents"), which were issued by the United States Patent and Trademark Office.

Catherine Mabee Dozier ("Assignee"), an individual residing at 2917 Milton Dallas TX 75205, desires to acquire all right, title, and interest in the Patents.

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor does hereby sell, assign, transfer, and set over to Assignee, her successors, and assigns, the following:

Assignor's entire right, title, and interest in and to the Patents, including the Inventions covered thereby, any foreign rights associated with the Patents, all rights of foreign priority related to the Patents, and all ideas, notes, work papers, designs, program listings, hardware, software, and all technology related to the Patents owned or assignable by Assignor, and any reissues, reexaminations, continuations, continuations-in-part, or renewals thereof and the right to sue for past infringement of the Patents; and

The Patents are to be held by Assignee, for her own use and enjoyment and that of her successors, assigns, or other legal representatives, to the end of the term or terms for which said Patents are or may be granted or issued, as fully and entirely as would have been held by Assignor had this assignment not been made, including the right to file patent applications in foreign countries in its own name.

Assignor warrants that it is the legal owner of all right, title, and interest in the Patents, that the Patents have not been otherwise previously pledged, assigned, or encumbered and that this assignment does not infringe on the rights of any person.

Assignor agrees to cooperate with Assignee and to execute and deliver all papers, instruments, and assignments as may be necessary to vest all right, title, and interest in and to the aforesaid Patents, including, without limitation, recordation of the assignment in the United States Patent and Trademark Office.
