WHEREAS, Jeffrie Green, of Beverly Hills, California, Assignor, has also invented a new and useful PACKAGING ASSEMBLY WITH NON-LINEAR SLOTS, for which an application for United States Letters Patent was filed on December 16, 2008 and assigned Serial No. 12336345, which has now resulted in United States Patent No. 7861865 issued January 4, 2011; and

WHEREAS, the assignments of the entire right, title and interest in and to the above inventions executed on July 23, 2008 and December 15, 2008, respectively, were inadvertently expressed as being made to Timely Inventions, LLC, an Illinois corporation, a non-existent entity, rather than to Timely Inventions, LLC, a Delaware limited liability company; and

WHEREAS, without intending to upset or set aside any subsequent assignments of the inventions, Assignor wishes to correct the record and confirm the original intent to assign the inventions to Timely Inventions, LLC, a Delaware limited liability company; and

WHEREAS, Assignor believes himself to be the original, and first inventor of the inventions disclosed and claimed in the above-identified applications for Letters Patent; and

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby confirms that it sold, assigned and transferred to Assignee, the entire right, title and interest in and to the inventions, the applications, and any Letters Patent that might be granted for the inventions in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Further, Assignor agrees that, upon request and without further compensation, but at no expense to Assignor, he and his legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the inventions, and for perfecting, recording or maintaining the title of

Assignee, its successors and assigns, to the inventions, the applications, and any Letters Patent granted for the inventions in the United States and throughout the world.

Assignor represents and warrants that he did not grant to others any rights inconsistent with the rights that were granted by this Assignment.
