ASSIGNMENT OF PATENT RIGHTS

This ASSIGNMENT OF PATENT RIGHTS (the “Assignment”) dated as of July 31, 2016 (the “Effective Date”), is entered into by and between Hewlett-Packard Development Company, L.P., a limited partnership formed in the state of Texas (“Assignor”), and OpenText Corporation, a corporation incorporated under the federal laws of Canada (“Assignee”).

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged:

1. Assignment. Assignor hereby irrevocably grants and assigns to Assignee all of Assignor’s right, title and interest in and to the patents and patent applications identified in the attached Schedule A (collectively, the “Assigned Patents”), including the inventions claimed therein and any patents or patent applications filed in the United States or abroad claiming the same priority as such patents and patent applications and including substantially similar claims and covering no other invention, to have and to hold the same, for Assignee’s own use and enjoyment and for the use and enjoyment of its successors and assigns, together with: (a) the right to prosecute, maintain and defend the Assigned Patents before any public or private agency, office or registrar including by filing reissues, reexaminations, divisions, continuations, continuations-in-part, substitutes, extensions and all other applications relating to the Assigned Patents; (b) the worldwide right, if any, to claim priority based on the filing dates of any of the Assigned Patents; and (c) the right to bring suit (either in law or in equity) and recover damages for past, present, and future infringement of such Assigned Patents , in each case of (a) through (c), for the full term or terms of all such Assigned Patents.

2. Recordation. Assignor hereby authorizes the Director of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record Assignee as the assignee and owner of the Assigned Patents and to deliver to Assignee, and to Assignee’s attorneys, agents, successors or assigns, all official documents and communications as may be warranted by this Assignment, including but not limited to issuing any and all Letters Patents of the United States (or corresponding documents in any applicable foreign countries) on inventions claimed in the Assigned Patents.

3. Governing Law. Any questions, claims, disputes, remedies or actions arising from or related to this Assignment, and any relief or remedies sought by any parties hereunder, shall be governed exclusively by the laws of the State of Delaware, without regard to any conflict of laws provisions thereof that would result in the application of the laws of another jurisdiction.
