Patent Assignment

Willard T. Rodgers Jr. ("Assignor"), is the owner of the entire right, title, and interest in and to U.S. Patent 7,441,505, dated October 28, 2008, titled Projectile Lighting System ("Patent").

WHEREAS, High Tactical, LLC, a Florida limited liability company ("Assignee"), desires to acquire the entire right, title and interest in and to the aforesaid Patent;

WHEREAS, Assignor warrants that there are no outstanding assignments, grants, liens, encumbrances, or agreements either written, oral, or implied with respect to the Patent that will impair, diminish, limit, or abridge the interest herein conveyed at the time of the execution of this instrument by me.

NOW, THEREFORE, for valuable consideration, the receipt of which is acknowledged, Assignor hereby assigns to Assignee, and its successors, representatives and assigns, all right, title and interest in the Patent including all reexaminations, extensions and reissues thereof, and the right to sue and recover damages from past infringement of the Patent.

Assignor further agrees, without any payment by said Assignee, other than expenses incurred by Assignor, to communicate to said Assignee, its representatives or agents, any facts relating to the invention, including evidence for interference purposes or for other proceedings, whenever requested; and to execute and deliver on request, all lawful papers required to make any of the foregoing provisions effective, and likewise to make these provisions binding upon my heirs, legal representatives, administrators, or assigns.

Assignor hereby grants the Assignee and its duly authorized representatives the power to insert on this agreement any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office, and any equivalent foreign office, for recordation of this agreement.

IN WITNESS WHEREOF, I have hereunto set my hand and seal on the date written below next to my name.
