THIS AGREEMENT is effective as of July 10, 2020 between AZTEC Engineering Group, Inc., an Arizona corporation having its principal place of business at 4561 E. McDowell Road Phoenix, Arizona 85008 (referred to herein as "Assignee") and Javier Damia Levy ("Assignor").

This Agreement is based on the following premises and objectives:

- A. Assignor desires to assign all technology disclosed and claimed in the patent application listed on the attached Schedule A to Assignee,
- B. Assignee makes no representation regarding any Assignor's contribution to the conception or reduction to practice of any invention or technology included in the patent application listed on Schedule A.
- C. Assignee nonetheless desires to acquire the entire and exclusive right, title and interest in the patent application listed on Schedule A as well as any respective inventions disclosed and claimed therein.

The parties mutually agree as follows:

As used herein, "Patent Rights" refers to the patent application listed on Schedule A.

For good and valuable consideration paid by Assignee, the receipt of which is hereby acknowledged by Assignor, Assignor hereby sells, assigns, and transfers to Assignee, its successors and assigns, the entire and exclusive right, title and interest in, to and under the Patent Rights and all other patent rights that may be based thereon, including all foreign and domestic rights, non-provisional applications, continuations and divisions thereof, to be held and enjoyed by Assignee for its own use and enjoyment, and for the use and enjoyment of its successors and assigns, to the end of the term or terms for which such issued patents may be granted or renewed, as fully and entirely as the same would have been held and enjoyed by Assignor if this assignment and sale had not been made, together with all claims for damages by reason of past infringement of the Patent Rights, with the right to sue for and collect on such claims for its own use and enjoyment, and for the use and enjoyment of its successors and assigns.

Assignor hereby represents and warrants that he has full legal right, power and authority to sell, assign and transfer the Patent Rights, and that there are no outstanding licenses or unrecorded rights in third parties to use the Patent Rights. Assignor hereby agrees not to execute any agreement in conflict with this assignment and that any prior agreement between any Assignor and a third party is subordinate to this Agreement.

Assignor agrees to execute and deliver all papers and take such other action, as may be necessary or desirable, to protect and perfect title to the Patent Rights in the Assignee. Assignor hereby authorizes and requests the Commissioner of Patents, or other proper governmental authority, to issue to Assignee, its successors and assigns, all issued patents from Patent Rights.

Assignor hereby agrees to communicate to Assignee any facts known that effect the Patent Rights, whenever requested, and will testify in any legal proceeding, sign all lawful papers, make all rightful oaths, and generally do everything reasonably necessary to aid Assignee, its successors and

assigns, to obtain and enforce proper trademark protection under the Patent Rights in all countries.

Assignor agrees that: if any provision of this Agreement is held by a court of law to be illegal, invalid or unenforceable, the legality, validity and enforceability of the remaining provisions of the Agreement shall not be affected or impaired thereby; the waiver of a breach of any provision of this Agreement shall not operate or be construed as a waiver of any other or a subsequent breach; the provisions of this Agreement shall remain in effect and bind the heirs, successors, assignees, and legal representatives of the parties; this Agreement may be amended or modified only with written consent; no oral waiver, amendment or modification shall be effective under any circumstances whatsoever; the terms of this Agreement are reasonable and that each Assignor has the right to have this Agreement reviewed by anyone of Assignor' choosing, including an attorney.
