ASSIGNMENT

WHEREAS **Kevin James Fitzgerald**, whose full post office address is 24 Finland Street, Copper Cliff, Ontario, P0M 1N0, Canada (the "Assignor") is the sole inventor of an invention entitled

LOW DENSITY BLASTING MAT

for which a provisional patent application was filed on August 20, 2020 in the United States Patent & Trademark Office as Application No. 63/067,914;

AND WHEREAS **B2B Industrial Inc.**, of 325 Quesnel Road, Sturgeon Falls, Ontario, P2B 2V7, Canada (the "Assignee"), has acquired from the Assignor his whole right, title and interest for Canada, the United States of America and all other countries in and to the said invention and said application, in and to any Letters Patent that may be obtained therefor, and in and to the right to sue for past infringement and to collect for all past, present and future damages;

NOW THEREFORE, in consideration of One Dollar (\$1.00) and other good and valuable consideration, the receipt and sufficiency of all of which is hereby acknowledged, the Assignor confirms that he has sold, assigned and transferred and does hereby sell, assign, and transfer unto the said Assignee and its successors and assigns, the Assignor's full and exclusive right to the said invention in Canada, the United States of America and all other countries and his entire right, title and interest in and to the said provisional application, and in and to any and all patent or design patent applications or similar applications (the "Regular Applications") in which priority is claimed from the said provisional application, and in and to any Letters Patent which may be granted therefor, and in and to any divisions, continuations, continuations-in-part and extensions of any of the Regular Applications.

The Assignor will, without further consideration, do all such things and execute all such documents as may be necessary or desirable to obtain and maintain patents for the invention and

for additions and modifications thereto in any and all countries, and to vest title thereto in said Assignee, its successors, assigns, and legal representatives or nominees.

The Assignor authorizes and empowers the Assignee, its successors, assigns and legal representatives or nominees, to invoke and claim for any application for patent or other form of protection for the invention or for additions and modifications thereto, filed by it or them, the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any convention which may henceforth be substituted for it, and to invoke and claim such right of priority without further written or oral authorization from the Assignor.

The Assignor hereby authorizes and requests the United States Commissioner of Patents and Trademarks to issue said Letters Patent to the Assignee, for its sole use and benefit, and for the use and benefit of its successors and assigns, to the full end of the term for which Letters Patent may be granted, as fully and entirely as the same would have been held by the Assignor had this assignment and sale not been made.
