## ASSIGNMENT

WHEREAS, I, Nathan David Milhoan, have invented one or more inventions described in the applications for letters patent and patents set forth in Schedule I hereto (collectively, the "Assigned Patents").

WHEREAS, Gotzee Automotive LLC (hereinafter "ASSIGNEE"), a limited company organized and existing under the laws of the state of Arizona, and having a usual place of business at 3420 West Ironwood Drive, Chandler, Arizona, 85266, desires to acquire an interest in the Assigned Patents, in accordance with obligations, under law, agreement or otherwise, to which I am bound.

NOW, THEREFORE, to all whom it may concern be it known that for and in consideration of said agreements and of other good and valuable consideration, the receipt of which is hereby acknowledged, I have sold, assigned and transferred and by these presents do hereby sell, assign and transfer unto said ASSIGNEE, its successors, assigns, and legal representatives, *nunc pro tunc effective as of July 24, 2020*, my entire right, title and interest in and throughout the United States of America, its territories and all foreign countries, in and to the invention(s) described in the Assigned Patents, together with my entire right, title and interest in and to the Assigned Patents and such letters patent as may issue thereon or claim priority thereto under United States law or international convention, including but not limited to non-provisionals, continuations, divisionals, reissues, reexaminations, extensions, and substitutions of any of the Assigned Patents or such letters patent granted thereupon, and any right, title and interest I may have in provisional applications to which any of the Assigned Patents claims priority; said invention(s), applications and letters patent to be held and enjoyed by said ASSIGNEE for its own use and behalf and for its successors, assigns and legal representatives, to the full end of the term for which said letters patent may be granted as fully and entirely as the same would have been held by me had this assignment and sale not been made. I hereby convey all of my rights arising under or pursuant to any and all United States laws and international agreements, treaties or laws relating to the protection of industrial property by filing any such applications for letters patent, including but not limited to any cause(s) of action and damages accruing prior to this assignment. I hereby acknowledge that this assignment, being of my entire right, title and interest in and to said invention(s), carries with it the right in ASSIGNEE to apply for and obtain from competent authorities in all countries of the world any and all letters patent by attorneys and agents of ASSIGNEE's selection and the right to procure the grant of all letters patent to ASSIGNEE in its own name as assignee of my entire right, title and interest therein.

AND, I hereby further agree for myself and my executors and administrators to execute upon request any other lawful documents and likewise to perform any other lawful acts which may be deemed necessary to secure fully the aforesaid invention(s) to said ASSIGNEE, its successors, assigns, and legal representatives, but at its or their expense and charges, including the execution of non-provisional, substitution, continuation, divisional, reissue, reexamination, or corresponding foreign or international patent applications.

AND, I hereby further agree to provide statements or testimony in any interference or other proceeding in which said invention(s) or any application or patent directed thereto may be involved.

AND, I hereby authorize ASSIGNEE or its attorneys or agents to insert the correct serial number and filing date into this assignment, if none is indicated on the date of my execution of this assignment.

AND, I hereby authorize and request the Director of the United States Patent and Trademark Office to issue such letters patent as shall be granted upon any of the Assigned Patents, or applications based thereon, to said ASSIGNEE, its successors, assigns, or legal representatives.
