NOW, THEREFORE, to all whom it may concern, be it known that, in consideration of agreements previously and duly entered into between the parties, and/or for other good and valuable consideration, the receipt of which is hereby acknowledged, **ASSIGNOR** hereby confirms and/or declares that it has sold, assigned, transferred, and conveyed and/or does hereby sell, assign, transfer and convey unto said **ASSIGNEE**, its successors and assigns, its entire right, title, and interest in and throughout the United States of America, its territories, and all foreign countries, in and to the patents and patent applications listed on Exhibit A attached hereto, any and all inventions described therein, inventor's certificates and other forms of protection thereon granted in the United States, foreign countries, or under any international convention, agreement, protocol, or treaty, including those filed under the Paris Convention for the Protection of Industrial Property, The Patent Cooperation Treaty or otherwise, including in and to any application that is based in whole or in part on any of the Patents, including to divisional, continuing, continuation-in-part, substitute, renewal, reissue, reexamination, and any other applications or extension of any kind of any of the foregoing, for example, that claim priority to any such patent applications, and patents, and patent applications and patents which have or which may be filed thereon or may be granted therefor, including any and all counterparts worldwide; (hereinafter "Patents"); and hereby confirms that such sale, assignment, transfer and conveyance is and was effective as of March 16, 2020. **ASSIGNOR'S** sale, assignment, transfer, and conveyance applies to all right, title and interest in and to each of the Patents, including all right, title and interest in and to all income, royalties, damages and payments now or hereafter due or payable with respect to the Patents, and all causes of action (whether in law or equity) and the right to sue, counterclaim, and recover for the past, present and future infringement of the Patents. Also, this sale, assignment and transfer pertains to and includes any and all other rights arising under or pursuant to any and all domestic and international agreements, treaties, or laws relating to the protection of industrial property, including all rights to claim priority to and from the Patents, including all rights of priority under the International Convention for the Protection of Industrial Property, and in and to any such patent(s) as may issue or reissue thereon including any and all original and reissued patents which have been or shall be issued in the United States and foreign countries; said inventions, applications, and patent(s) to be held and enjoyed by **ASSIGNEE** for its own use and for its successors, assigns and legal representatives, to the full end of the term for which said patent(s) may be granted;

AND, ASSIGNOR further hereby authorizes ASSIGNEE or its attorneys or agents to insert the correct serial number(s) and/or filing date(s) into this assignment document, if appropriate;

AND, ASSIGNOR hereby requests the Director of Patents and Trademarks of the United States, and any official of any country or countries whose duty it is to issue patents or other evidence or forms of industrial property protection, to issue any and all patent(s) as shall be granted upon said application or applications based thereon to ASSIGNEE, its successors, assigns, and legal representatives, for the sole use of said ASSIGNEE, its successors, assigns, and legal representatives;
