COMBINED ASSIGNMENT AND DECLARATION OF PATENT APPLICATION

Title of Invention: FUNCTION-AS-A-SERVICE FOR TWO-WAY COMMUNICATION SYSTEMS

Application No.: 17/119,445, filed on December 11, 2020

ASSIGNMENT

WHEREAS, I, **Christian Thum**, residing at Mannheim, Germany, am the original inventor or an original joint inventor of the invention(s), hereinafter referred to as "Invention(s)," in the above identified and/or attached patent applications, hereinafter identified as the "Application";

WHEREAS, **LIVEPERSON, INC.**, having a principal place of business at 475 10th Avenue, 5th Floor, New York, New York 10018, hereinafter referred to as "LIVEPERSON," is desirous of acquiring an interest in the Invention(s) and Application; any United States, International, or foreign patent application directed to (at least in part) one or more of the Invention(s); and any United States or foreign Letters Patent and Registrations that may be granted and that is directed to (at least in part) one or more of the Invention(s);

In consideration of good and valuable consideration, the receipt of which is hereby acknowledged, I, the inventor, have assigned, and by these presents do assign to LIVEPERSON all right, title, and interest in and to the entirety of the Invention(s) and Application; any United States, International, or foreign patent application directed to (at least in part) one or more of the Invention(s); and any United States or foreign Letters Patent and Registrations that may be granted and that is directed to (at least in part) one or more of the Invention(s) and Application.

Should the Application be filed as a provisional, non-provisional, or International patent application in the United States or in any other country, I agree that the assignment assigns all right, title and interest to the filed application, to all foreign counterparts (including patent, utility model, and industrial designs), and in and to any Letters Patent and Registrations which may hereafter be granted on any patent application claiming priority from the same in the United States and all countries throughout the world, and to claim the priority from the Application as provided by the Paris Convention.

The right, title, and interest is to be held and enjoyed by LIVEPERSON and LIVEPERSON's successors and assigns as fully and exclusively as it would have been held and enjoyed by me had this Assignment not been made, for the full term of any Letters Patent and Registrations which may be granted thereon, or of any division, renewal, continuation in whole or in part, substitution, conversion, reissue, prolongation, or extension thereof.

I further agree that I will, without charge to me, but at LIVEPERSON's expense, (a) cooperate with LIVEPERSON in the prosecution of U.S. Patent applications and foreign counterparts directed to (at least in part) one or more of the Invention(s) or Application and any improvements, (b) execute, verify, acknowledge, and deliver all such further papers, including patent applications and instruments of transfer, and (c) perform such other acts as LIVEPERSON lawfully may request to obtain or maintain Letters Patent and Registrations for (at least in part) one or more of the Invention(s) and improvements in any and all countries, and to vest title thereto in LIVEPERSON, or LIVEPERSON's successors and assigns. I waive any obligation of LIVEPERSON to file foreign counterparts on (at least in part) one or more of the Invention(s); file the attached application; or continue pursuit of prosecution of (at least in part) one or more of the Invention(s). I agree that LIVEPERSON can, in its sole discretion, choose in which countries to file foreign counterparts and can further choose the type of each application that is to be filed, unless I have previously informed LIVEPERSON in writing of any foreign counterparts I would like the option to pursue or prosecute.

I hereby authorize and request Polsinelli LLP, Three Embarcadero Center, Suite 2400, San Francisco, CA 94111, to insert herein above an application number and filing date, when known, of any United States, International or foreign patent application that corresponds to the Application or is directed to any of the Invention(s).
