ASSIGNMENT

WHEREAS I, **Michael Karp**, **Hilary Farnsworth**, and **Gianfranco Bonanome**, (Assignors) have made or contributed to a certain new and useful invention, development, design and/or subject matter as set forth in an application for United States Letters Patent, entitled “ULTRASONIC HUMIDIFIER WITH EXTERNAL CLEANING COMPATIBILITY” for which a provisional application for United States Letters Patent entitled “Ultrasonic Humidifier with External Cleaning Compatibility, Flexible Water Source, and Replaceable Piezo” was filed on September 8, 2021, and identified by United States Serial No. 63/241,969 (“application”);

WHEREAS I hereby declare and provide the following statement: (1) the application was made or was authorized to be made on my behalf; (2) I believe I am the original inventor or an original joint inventor of a claimed invention in the application; and (3) I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that any willful false statement made in such declaration or statement is punishable under section 1001 of title 18 by fine or imprisonment of not more than 5 years, or both.

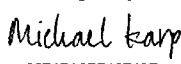

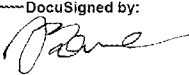

AND WHEREAS, **Aireau Labs Corporation**, a corporation of Delaware and having an address of P.O. Box 31249, Los Angeles, CA 90031, is desirous of acquiring the entire right, title and interest in and to said invention and in and to any and all Letters Patent of the United States and foreign countries which may be obtained therefore (Assignee);

NOW, THEREFORE, for good and valuable consideration, the receipt for and sufficiency of which is hereby acknowledged, Assignors do hereby sell, assign, transfer and set jointly over unto Assignee, its legal representatives, successors, and assigns, the entire right, title and interest in and to said invention development, design and/or subject matter as set forth in the above-mentioned application(s) and/or patent(s), and any modifications and/or improvements relating thereto (hereinafter “invention”), and any additional patent applications and patents in the United States and foreign countries, and any provisional applications, including U.S. Provisional Patent Application No. 63/241,969, original applications, non-provisional applications, formal applications, continuation applications, continuations-in-part applications, continued prosecution applications, request for continued examination applications, divisional applications, reissue applications, re-examinations or extensions thereof, and in and to any and all patents of the United States and foreign countries which may be issued or have already issued for said invention and any additional inventions, developments, designs and/or subject matter relating to said invention (hereinafter “related inventions”), and all proprietary, trade secret, intellectual property and/or confidential rights related to said invention and related inventions, and all rights to claim priority therefrom and/or thereto; and any copyright or designs associated with or in said invention and related inventions; and all rights of action and damages for any past, present or future infringement relating thereto, including all rights of actions and damages from publication of the patent applications and/or issuance of any patent relating thereto;

UPON SAID CONSIDERATIONS, Assignors hereby agree with the said Assignee that Assignors will not execute any writing or do any act whatsoever conflicting with these presents, and that Assignors will, at any time upon request, without further or additional consideration but at the expense of said Assignee, execute such additional assignments and other writings and do such additional acts as said Assignee may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in

making application for and obtaining said invention, related inventions, provisional applications, original applications, non-provisional applications, formal applications, continuation applications, continuations-in-part applications, continued prosecution applications, request for continued examination applications, divisional applications, reissue applications, re-examinations, extensions thereof, or extended Letters Patent of the United States or of any and all foreign countries on said invention, and in enforcing any rights or choses in action accruing as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents, and by executing preliminary statements and other affidavits, it being understood that the foregoing covenant and agreement shall bind, and inure to the benefit of the assigns and legal representatives of Assignors and Assignee;

AND Assignors request the Commissioner of Patents and Trademarks to issue any Letters Patent of the United States which may be issued for said invention and related inventions to said Assignee, its legal representatives, successors or assigns, as the sole owner of the entire right, title and interest in and to said patent and the invention or related inventions covered thereby.
