ASSIGNMENT OF PATENTS

ASSIGNMENT OF PATENTS (this "Assignment") made as of November 16, 2012 by Stull Technologies, Inc., a corporation organized under the laws of New Jersey ("Assignor"), to MRP New Jersey LLC, a limited liability company organized under the laws of Delaware ("Assignee").

WHEREAS, Assignor, Assignee, Valcour Closures LLC, Gene Stull, Jr., Jameson Stull and Jason Stull are parties to an Asset Purchase Agreement, dated as of the date hereof (as it may be amended, modified or supplemented from time to time, the "Agreement"), providing for the execution and delivery of this Assignment by Assignor to Assignee (capitalized terms used herein without definition shall have the meanings set forth in the Agreement);

WHEREAS, Assignor owns the patents and patent applications set forth on Schedule I attached hereto and incorporated by reference herein, which are issued by or filed with the United States Patent and Trademark Office or other foreign government registry, as applicable, together with all provisionals, reissuances, continuations, continuations-in-part, divisions, revisions, extensions, and reexaminations thereof, all patents and patent applications claiming priority therefrom, all inventions disclosed in any of the foregoing (whether patentable or not), and all improvements thereto (collectively, the "Assigned Patents"); and

WHEREAS, Assignee desires to acquire Assignor's rights, title and interests in and to the Assigned Patents.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor and Assignee agree as follows:

Assignor does hereby convey, assign, transfer and deliver to Assignee, free and clear of Liens, encumbrances and other liabilities and charges (other than Permitted Liens), (i) all of Assignor's rights, title and interests in and to the Assigned Patents, (ii) the right to sue or otherwise recover for past, present and future infringement or other violation thereof, and (iii) all proceeds, including license fees, royalties, income, payments, claims, damages, and proceeds of suit now or hereafter due and/or payable with respect thereto, the same to be held and enjoyed by Assignee, its successors and assigns or their legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

Following the consummation of the Transactions, Assignor shall, and shall cause its Affiliates to, execute and deliver, without consideration, such documents as Assignee may reasonably request, or take any additional actions, in each case, if necessary or appropriate in connection with the consummation of the Transactions, to more effectively

convey, assign and transfer to Assignee (or to more effectively record or evidence the same) the Assigned Patents. Assignor and Assignee agree that any filing fees associated with recording this Assignment with the United States Patent and Trademark Office or other foreign government registry, as applicable, shall be borne solely by Assignee.

Assignor hereby authorizes and requests that the United States Patent and Trademark Office record this Assignment.

This Assignment shall be governed by, and construed in accordance with, the laws of the State of New York, without giving effect to any choice of law or conflict of law rules or provisions (whether of the State of New York or any other jurisdiction) that would cause the application of the laws of any jurisdiction other than the State of New York.

[signature page follows]

IN WITNESS WHEREOF, Assignor has caused this Assignment to be duly executed as of the date first written above.
