**CONFIDENTIALITY, PROPRIETARY RIGHTS AND NONCOMPETITION AGREEMENT**

I, the undersigned employee, enter into this Confidentiality, Proprietary Rights and Noncompetition Agreement ("Agreement") with NuScale Power, LLC ("Company"). This Agreement will be effective upon my first day of work for Company.

Company has researched, compiled and developed certain proprietary data, including, but not limited to customer information, trade secrets, and other information which is not generally disclosed by Company to the public. In the course of my employment with Company, I may acquire knowledge (both orally and in writing) relating to confidential affairs of the company and confidential, proprietary, and trade secret information. In consideration of my employment, and Company's time, effort and resources devoted to my training and briefing, and my access to Confidential Information (defined below) that will assist me in performing my job duties, I agree as follows:

[REDACTED]

Employee Initials A.G.

**3. Assignment of Inventions.**

(a) **"Inventions"** means ideas, improvements, designs, processes, formulas, techniques, authored works (whether software or other forms), and/or discoveries, whether or not reduced to writing, and whether or not patentable or copyrightable.

(b) **"Covered Work"** means Inventions conceived by me (alone or with others) while employed by Company, or that are developed in whole or in part on Company's time, or in whole or in part using Company's equipment, supplies, or facilities, or that depend for their effectiveness on, or incorporate, Confidential Information. An Invention I conceive or develop is Covered Work whether or not my activities occur (i) on or off the premises, (ii) before, during or after working hours, or (iii) within or without the scope of work assigned to me.

(c) **Assignment.** I understand that Covered Work is work made for hire and, in any case, owned exclusively by Company. To the extent any such Covered Work does not qualify as work made for hire, I hereby assign to Company all worldwide right, title and interest to all such Covered Work, whenever made. I hereby waive any rights and claims I may have in any jurisdiction to any moral rights of "droit moral" with respect to any Covered Work and confirm that Company has the right to make, have made, and own enhancements, derivative works, and other modifications to Covered Work.

(d) **Reporting.** I agree to inform an officer of Company if I intend to incorporate into Company's products or technology or otherwise use for Company's benefit any Invention I made that I believe is not a Covered Work. If I fail to inform an officer of Company prior to such use of an Invention I made, I hereby grant to Company a non-exclusive, unlimited, perpetual, irrevocable, worldwide, royalty-free right and license to use such Invention in connection with Company's business and in its sole discretion.

(e) **Exceptions.** Except as provided in Section 3(d) above, this Section 3 does not apply to any Invention I made that predates my employment with Company and which is identified on Exhibit A to this Agreement. This Section 3 also does not apply to any invention for which no equipment, supplies, facilities, or trade secret information of Company was used and which was developed entirely on my own time, unless (i) the invention relates directly to the business of Company, or to Company's actual or demonstrably anticipated research or development, or (ii) the invention results from any work I performed for Company.

(f) **Cooperation.** I will reveal promptly all information relating to Inventions and Covered Work to an appropriate officer of the Company. At Company's expense, and for no additional compensation, I will cooperate fully and promptly with Company and execute such documents as may be requested if Company desires to seek, document, enhance, or defend Company's ownership, copyright, patent, trademark, or other intellectual property protection relating to any Covered Work, even after I no longer work for Company. I appoint Company (and its authorized agents) as my agent and attorney-in-fact for the following limited purposes: to take any action to obtain patents, copyrights, or other kinds of legal protection in Covered Works; to assign those rights to Company; and to protect those rights from infringement. This

appointment and power of attorney are irrevocable. Any action taken by Company under this power of attorney will have the same legal effect as if I did it myself.
