## ASSIGNMENT BY INVENTORS

Whereas: **William S. Bowman** of Melbourne, FL, **Sean Wagoner** of West Melbourne, FL, **Andrew D. Falendysz** of Grant, FL, **Matthew D. Summer** of Melbourne, FL, **Kevin Makovy** of West Melbourne, FL, **Jeffrey S. Cooper** of Centreville, VA, and **Brad Truesdell** of Indialantic, FL, and (hereinafter “Assignors”) have invented one or more certain inventions (hereinafter “Invention(s)”) described in U.S. Application Serial No. 17/571,081, filed on January 7, 2022, entitled CLASSIFICATION PARALLELIZATION ARCHITECTURE.

Whereas **Tomahawk Robotics**, a corporation in the state of Florida having its principal place of business at 2326 Irwin Street, Melbourne, Florida, 32901 US, (hereinafter “Assignee”) desires to acquire the entire right, title and interest in and to the Invention(s) and the Application(s), and in and to any patents (collectively, “Patents”) that may be granted for the Invention(s) in the United States or in any foreign countries;

Now therefore, for valuable consideration given by Assignee, the receipt and sufficiency of which each Assignor acknowledges, Assignors hereby affirm they have sold, assigned, and transferred to Assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to: the Invention(s), any above-mentioned Application(s) describing the Invention(s), and any Patents issuing thereon; any divisions, continuations, and continuations-in-part of the above mentioned Application(s) and any other application claiming priority rights from the Application(s); any reissues, reexaminations, or extensions of any and all Patents; the right to file foreign applications directly in the name of Assignee; and the right to claim priority rights deriving from the Application(s) (collectively, the “Rights”). Each Assignor agrees not to sign any writing or do any act conflicting with this assignment and, without further compensation, sign all documents and do such additional acts as Assignee deems necessary or desirable to: perfect Assignee’s enjoyment of the

Rights; conduct proceedings regarding the Rights, including any litigation or interference proceedings; and perfect or defend title to the Rights.

Assignors further assign all right, title and interest to all patent, trademark, copyright, and/or trade secret rights (including renewals and extensions thereto) created by Assignor relating to the Rights, including methods of making and using thereof.

Assignors further affirm that, at the time the assigned subject matter was created they were employed by or otherwise engaged by Assignee, and by virtue of that employment or engagement were obligated to, and did assign, the Rights, including those arising under patent, trademark, copyright and trade secret, to the Assignee at the time of their creation and that they authorized filing of Application(s) for the assigned subject matter in the name of the Assignee.

Assignors request the Commissioner of Patents to issue any Patent of the United States that may be issued on the Invention(s) to Assignee. This Assignment may be executed in counterparts.

ASSIGNOR HEREBY GRANTS to the law firm of **PERKINS COIE LLP** the power and authority to insert in this Assignment any further identification which may be

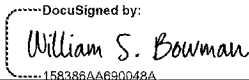

necessary or desirable to comply with the rules of the U.S. Patent and Trademark Office for recordation of this Assignment.
