ASSIGNMENT OF PATENT APPLICATION

Whereas I, an undersigned named inventor, possess the right, title and interest for and in the Invention(s) as set forth in the PCT international patent application entitled: *DETECTION DEVICE FOR A FLUID CONDUIT OR FLUID DISPENSING DEVICE* (Atty. Docket No. ORBSP008WO), and

(1) for which I am a named inventor on a PCT international patent application that designates the U.S.;

AND/OR

(2) the same having been filed on **June 5, 2020** as PCT Application No. **PCT/US2020/070126**;

AND/OR

(3) which claims priority to U.S. [Provisional] Patent Application filed on (_____) as Application No. (_____).

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I, an undersigned named inventor, hereby:

1) Sell, assign and transfer to **Orbis Intelligent Systems, Inc.**, a Delaware corporation having a place of business at 5675 Ruffin Road, Suite 110, San Diego, CA 92123 U.S.A. ("ASSIGNEE"), the entire right, title and interest, including the right to claim priority, in the above-referenced PCT international application including any and all improvements and inventions disclosed therein, and in any U.S. and foreign applications (e.g., national phase applications) based upon, and U.S. and foreign patents based upon, the above-referenced PCT international application. To the extent that any rights identified in this assignment have been previously conveyed by me to ASSIGNEE, this assignment shall be considered a confirmatory assignment with respect to those rights.

2) Authorize and request the Commissioner of Patents to issue any and all Letters Patents resulting from said application or any division, continuation, substitute, renewal, re-examination or reissue thereof to the ASSIGNEE.

3) Agree to execute all papers and documents and, entirely at the ASSIGNEE's expense, perform any acts which are reasonably necessary in connection with the prosecution of said PCT international application, as well as any derivative applications thereof, any U.S. and foreign national phase patent applications based on the above-referenced PCT international patent application, and/or the enforcement of patents resulting from such applications.

4) Agree that the terms, covenants and conditions of this assignment shall inure to the benefit of the ASSIGNEE, its successors, assigns and other legal representative, and shall be binding upon the named inventor, as well as the named inventor's heirs, legal representatives and assigns.

5) Warrant and represent that I have not entered, and will not enter into any assignment, contract, or understanding that conflicts with this assignment.

6) Agree that any party to this Assignment can conduct this Assignment transaction by electronic means, and that use of an electronic signature by any party listed herein in executing this

Assignment is to be viewed as indicative of an intent by that party to give legal effect to that electronic signature in the same manner as if they had signed this Assignment in their own hand.

7) Agree that this Assignment shall be exclusively governed by, and shall be construed in accordance with, the laws of the State of California without regard or reference to any conflict-of-laws rules or principles that might refer the governance or the construction of this Assignment to the laws of another jurisdiction.

Signed on the date indicated beside my signature.
