GENERAL DECLARATION OF ASSIGNMENT

I, the undersigned

Martin Refslund NIELSEN
Solbjærget 37
3460 Birkerød
Denmark

hereinafter called the "ASSIGNOR", do hereby declare that I have assigned to

Ambu A/S
Baltorpbakken 13
2750 Ballerup
Denmark
Registration no. 63644919

hereinafter called the "ASSIGNEE", and to the extent of any rights I may still have, I hereby assign to the ASSIGNEE, my entire right, title and interest, in and to the following invention(s):

"An endoscope control system"

For which European patent application No. 20172242.8 has been filed on 30 April 2020 in the name of the ASSIGNEE.

The ASSIGNEE or those to whom said ASSIGNEE assigns its rights are hereinafter the sole proprietor of all rights to the said invention(s) and have the disposal thereof at its own discretion.

This assignment comprises the right to apply for protection for the invention(s) in all countries through international, regional or national patent application or utility model application or in any other way as well as the right to claim priority from the filing date of the first-filed application describing, at least in part, the invention, and the right to apply for protection of improvements to the invention in subsequent applications claiming priority to the first-filed application, including continuation-in-part applications.

The ASSIGNOR commits himself and his legal successors of any kind to be at disposal with such information, which the ASSIGNEE, its patent attorney or its legal successors may need regarding the invention(s) and its protection in Europe as well as in other countries.

And the ASSIGNOR commits himself and his legal successors of any kind, without delay and remuneration, possibly before a Notary Public or other authority - but without costs for the ASSIGNOR or his legal successors - to sign all such documents which the ASSIGNEE, its patent attorney, or its legal successors may require in order to obtain protection.

If the conditions require that the invention(s) needs protection by more than one patent or utility model in any country, the assignment and commitments are valid on all such applications and documents which the ASSIGNEE, its patent attorney or its legal successors in that circumstance may wish.

As already informed the ASSIGNEE will in accordance with applicable data protection laws, in particular the Regulation (EU) 2016/679 (European Union General Data Protection Regulation), be processing the ASSIGNOR's personal data (full name, home address and nationality) to document inventorship and entitlement of the abovementioned invention(s) for the purposes of obtaining protection of the invention(s) and utilizing the rights conferred. The processing of the aforementioned ASSIGNOR'S personal data is a requirement to comply with by applicable laws. More information about rights as a registered person with Ambu can be found on: <https://www.ambu.com/privacy-statement>. The ASSIGNEE is the data controller and will always respect the ASSIGNOR's rights as a registered person. The ASSIGNEE will delete personal data of the ASSIGNOR, when processing is no longer required for the purpose stated above nor required by applicable data protection and retention laws. Personal data will be exchanged with the ASSIGNEE's patent attorneys and relevant authorities, in particular the patent offices in all countries in which ASSIGNEE may file patent applications, ("Data Recipients") for the purposes stated above. The Data Recipients may be subject to further or specific data protection and retention requirements, business codices or professional confidentiality obligations.

The ASSIGNEE hereby accepts this assignment.
