**PATENT ASSIGNMENT AGREEMENT**

This Patent Assignment Agreement, dated as of December 1, 2021 (the “**PATENT ASSIGNMENT**”), is entered into by and between Unity Technologies SF, a California corporation with its principal place of business at 30 3rd Street, San Francisco, CA 94103 (“**ASSIGNEE**”) and Unity Software Inc., a Delaware corporation, with its principal place of business at 30 3rd Street, San Francisco, CA 94103 (“**ASSIGNOR**”) (**ASSIGNEE AND ASSIGNOR**, collectively, the “**PARTIES**”).

**WHEREAS**, **ASSIGNOR** owns certain **PATENTS** (as defined below);

**WHEREAS**, **ASSIGNEE** desires to acquire all of the right, title and interest in, to and under the **PATENTS**; and

**WHEREAS**, the **PARTIES** have entered into a certain **IP ASSIGNMENT AGREEMENT** dated December 1, 2021 (“**IP ASSIGNMENT AGREEMENT**”), assigning among other things, all right, title and interest in and to the **ASSIGNED IP** (as defined therein) from **ASSIGNOR** to **ASSIGNEE**.

**NOW, THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the **PARTIES** agree as follows:

1. **ASSIGNOR** hereby sells, transfers, conveys, assigns and delivers unto **ASSIGNEE**, and **ASSIGNEE** hereby acquires and accepts from **ASSIGNOR** all of **ASSIGNOR**’S right, title and interest in and to the **PATENTS**, including all rights to causes of action and remedies related thereto (including, without limitation, the right to sue for past, present or future infringement, misappropriation or violation of rights related to the foregoing); any and all rights to claim priority to all **PATENTS** constituting applications and any and all applications claiming priority thereto or based on the inventions claimed thereby, for **ASSIGNEE**’s own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for which patents may be granted, as fully and entirely as the same would have been held and enjoyed by **ASSIGNOR**, had this sale and assignment not been made; and any and all other rights and interests arising out of, in connection with or in relation to the **PATENTS**.

“**PATENTS**” means any domestic or foreign patents, utility models and applications, drafts and invention disclosure statements relating thereto (and any patents or utility models that issue as a result of such applications, drafts and invention disclosure statements) together with all reissues, counterparts, divisions, divisionals, continuations, continuations-in-part, provisionals, renewals, extensions, substitutions, reexaminations or invention registrations related to such patents, utility models and applications, in each case, to the extent included in the **ASSIGNED IP**, including as listed in Exhibit A attached hereto.

2. **ASSIGNOR** hereby authorizes and requests the Commissioner for Patents in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdictions to issue the **PATENTS** to and in the name of **ASSIGNEE** as the assignee of such **PATENTS**. **ASSIGNOR** shall execute such written instruments, extend such other cooperation and perform such other acts as may be reasonably necessary or appropriate, in the reasonable opinion of **ASSIGNEE**, to convey, establish, evidence, maintain, defend and enforce **ASSIGNEE**’S rights in the **PATENTS**.
3. This **PATENT ASSIGNMENT** shall be deemed to be made and in all respects shall be interpreted, construed and governed by and enforced in accordance with the laws of the State of Delaware without regard to the conflicts of laws principles thereof.
4. This **PATENT ASSIGNMENT** may be executed in two (2) or more copies, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
5. In the event of a conflict between the terms and conditions set forth in this **PATENT AGREEMENT** and the terms and conditions set forth in the **IP ASSIGNMENT AGREEMENT**, the terms and conditions set forth in the **IP ASSIGNMENT AGREEMENT** shall control.

[Remainder of page intentionally left blank; signature page follows]

IN WITNESS WHEREOF, the PARTIES have each caused this PATENT ASSIGNMENT to be duly executed by an authorized officer as of the date first written above.
